IN RE: Application of Utilities, Inc.
of Florida for a rate increase in Marion,
Orange, Pasco, Pinellas and Seminole
Counties

Docket No.020071-WS

UTILITIES, INC. OF FLORIDA'S RESPONSE
TO CITIZEN'S MOTION TO COMPEL

UTILITIES, INC. OF FLORIDA. (*UIF*) by and through its undersigned attorneys and responds to the Motion to Compel of the Citizens of the State of Florida made by and through the Office of Public Counsel (*OPC*) as follows:

1. The information requested by OPC in Interrogatory No. 2 relates to data comparable to that provided in MFR Schedules B-5 and B-6 for the years 1996- 2000. The OPC is, in fact, making a request for production of a document and should be styled as such because it purports to require UIF to create a document which does not presently exist from information which UIF does not maintain in the requested format. UIF correctly characterized this request as a request for production and responded accordingly. It would be unduly burdensome and costly to require UIF to create this document. The information requested by OPC exists in the form of its general ledger and trial balance sheets for the relevant period and UIF will make these available to OPC on request.

2. The information requested by OPC in Interrogatory No. 8 requested information concerning the adjustment to accumulated depreciation in relation to plant in service in Seminole County. UIF was granted a 60-day extension to file corrections and amendments to the MFR's filed in this case. These corrections and updates will include the information that is responsive to this request and will be provided to OPC at that time.

3. The information requested in Interrogatories 20, 21, 22, 24, 26, 27, 28 and 29 relates to expenses of various types. Again, OPC is requiring UIF to create a document which does not exist from information which UIF does not maintain in the requested format. UIF has already provided the general ledger sheets which enumerate all of these expenses. It would be oppressive, unduly burdensome and costly to require UIF to create this document. However, if requested by OPC, UIF

DOCUMENT NUMBER DATE

13888 DEC 20 08

FPSC-COMMISSION CLERK

could break down the general ledger sheets to reveal more detail on designation by OPC of the specific type of information it is looking for.

4. The information requested by OPC in Request for Production No. 3 requests certain contracts and work papers relating to a \$100,296.00 cost to City of Sanford on Marion County and Seminole County Schedule B-3. Attached to this Response as Exhibit "A" are (a) calculations showing that this amount is an estimate of the cost for obtaining wastewater service from the City of Sanford based on actual usage of water for the year 1999; and (b) a copy of the Agreement for Purchase of Wastewater Service with the City of Sanford.

5. In its Request for Production No. 5, OPC requested the supporting documentation for certain operating expenses set out in Schedule B-9 for each county. The documentation responsive to this request was provided to OPC in the general ledger and trial balance sheets and the responses to Interrogatories 20, 21, 22, 24, 26, 27, 28 and 29. At the time of its response, UIF believed that providing the general ledger and trial balance sheets was the most efficient and effective way to get the requested information into the hands of the OPC. It would take months to research, review, photocopy and collate all of the supporting documentation for these expenses. It would be oppressive, unduly burdensome and costly to UIF and ratepayers to require UIF to produce all of the requested documentation. However, UIF could provide the supporting documentation for specific items designated by OPC, or the identification of service providers for any category of expense, such as a list of vendors on request by OPC.

6. In its Request for Production No. 14, OPC requested the invoices for legal services included in test year expenses. This information is available to OPC in the general ledger and trial balance sheets. At the time of its response, UIF believed that providing the general ledger and trial balance sheets was the most efficient and effective way to get the requested information into the hands of the OPC. It will require approximately 30 days to research, review, photocopy and collate these invoices for OPC. It will be very costly to reproduce this documentation. UIF will provide these invoices on or before January 10, 2003, subject to claims of confidentiality.

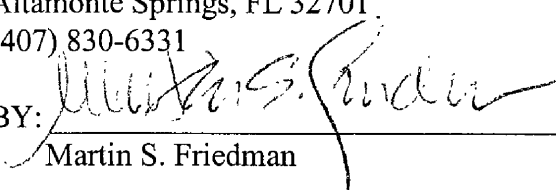

7. In its Request for Production Nos. 28 and 32, OPC requested the invoices for travel and expense vouchers for senior managers and for legal vouchers. This information is available to OPC in the general ledger and trial balance sheets. At the time of its responses, UIF believed that providing the general ledger and trial balance sheets was the most efficient and effective way to get the requested information into the hands of the OPC. Each voucher may contain items of expense for a number of projects, both inside and outside the State of Florida, and for other items of expense other than the items specified by OPC. It will require months to research, review, photocopy and collate these invoices for OPC. It would be oppressive, unduly burdensome and costly both for UIF and ratepayers to compel UIF to produce all documents responsive to this request unless OPC specifies exactly which items of expense it requires.

8. This Commission may modify or restrict the scope of discovery pursuant to FAC Rule 28-106.206 and FRCP Rule 1.280(c).

WHEREFORE, UTILITIES, INC. OF FLORIDA respectfully requests the Commission deny OPC's Motion to Compel and enter an order restricting the scope of discovery relating to the discovery requests of OPC in accordance with this Response.

Respectfully submitted on this
14th day of December, 2002 by:

Agreement for Purchase of Wastewater Treatment Services

**AGREEMENT FOR PURCHASE OF
WASTEWATER TREATMENT SERVICE**

THIS AGREEMENT, made and entered into this 24th day of August, 2000, by and between THE CITY OF SANFORD, a municipal corporation of the State of Florida, hereinafter referred to as "City" and UTILITIES INC. OF FLORIDA, hereinafter referred to as "Utility".

WITNESSETH:

WHEREAS, Utility is a valid holder of a Florida Public Service Commission ("PSC") certificate of authorization ("Certificate") to provide wastewater utility services within the unincorporated area of Seminole County ("County") in accordance with Exhibit "A" attached hereto ("Certificated Territory"), and;

WHEREAS, Pursuant to § 180.02, F.S., City is a provider of wastewater utility service to various customers outside the City Limits, and within the unincorporated jurisdiction of the County, and;

WHEREAS, Utility desires to purchase wastewater service from City and City desires to provide such service to Utility;

NOW, THEREFORE, in consideration of the mutual covenants and conditions contained herein, it is agreed as follows:

1. Sale of Wastewater Service. City shall sell wastewater service to Utility, and Utility shall purchase and pay for said service, in accordance with the terms of this Agreement. City shall continuously ensure an adequate transmission of wastewater from the metered outlet of the Utility pursuant to this Agreement subject to natural disasters, unexpected line breaks or stoppages, and all other causes not the fault of the City, and shall continuously ensure future

service based upon Utility's estimated future demand over a five-year planning period, which will be updated from time to time. The initial estimated demand for wastewater service is outlined in Exhibit "B" attached hereto. The estimates in Exhibit "B" are strictly for planning purposes, and Utility shall not be penalized for differences between estimates and actual demand.

2. Connection Point.

A. Utility shall connect its system to the City wastewater system at a City manhole located at the intersection of Bevier Road and Jewett Lane, as shown on Exhibit "C" attached hereto. Additional connection points may be provided when mutually agreed. Utility shall pay the cost of construction of a lift station near said point or points of connection to pump Utility's wastewater to the Connection Point. Utility shall own, operate and maintain said lift station, and do so in accordance with all regulations.

B. Utility shall construct a flow metering system to register the wastewater flows to the City. Said metering system shall be selected, designed and constructed pursuant to City's reasonable specifications and requirements. The Connection Point shall be clearly shown on the engineering design drawings for the metering system.

C. Any new metering systems replacing this original metering system shall be at the Utility's expense, and must be mutually consented to in advance of construction. Said consent shall not be unreasonably withheld.

3. Metering, Charges and Payment.

A. At least annually, the Utility shall retain the services of a meter calibration company qualified or certified by the meter manufacturer, to calibrate and if necessary correct the wastewater meter. Meter accuracy errors in excess of the manufacturer's specifications shall be adjusted for a period of no more than three (3) months of billing. Credits due to errors shall be

applied to the following month's bill. The City may also choose to retain a qualified meter calibration company to check the meter's accuracy at any time, and shall be given access to the meter for said purpose. If Utility's calibration company certifies, in writing, meter error in excess of the manufacturer's specifications, the City shall either: 1) Accept the calibration and error for adjustment of the bill, or, 2) arrange for its own calibration and bill adjustment pursuant to this Agreement within thirty (30) days of Utility's certification of meter error.

B. Utility shall pay City monthly for wastewater service provided pursuant to this Agreement based on readings obtained from the metering system. Utility shall pay all wastewater bills rendered by City within twenty-one (21) days after receipt of same.

C. The City's wastewater facilities impact fee ("Impact Fee") with respect to Utility and its existing and prepaid customers shall be \$ _____ for a total of 241 Equivalent Residential Connections ("ERC"). This is based on the current lawful connection fee established by the City. A list of the customers served is shown on Exhibit D. Each new customer connecting to Utility's system after the execution of this Agreement shall be required to pay the current City wastewater impact fee to City, unless a reserve capacity/connection fee has already been paid to Utility or a contract to pay the reserve capacity/connection fee to Utility already existed. A summary of prepaid connections is presented on Exhibit D, and is part of the total fee stated above.

D. City shall give Utility not less than ninety (90) days advance written notice of all increases in monthly charges.

E. The Utility's existing sewage collection system shall be reasonably free of defects that would allow excessive infiltration or inflow to be pumped to the City's system. The City has inspected the Utility's system and finds it reasonably free of defects at the date of execution of this Agreement, however, the City shall have the right to inspect the utility's

collection system in the future to ensure continued compliance with this Agreement. The utility agrees to correct any problem found in their system at their expense. The utility shall abide by all City regulations, especially those concerning wastewater quality and pollutants being discharged to the City.

4. Property of Utility. All mains, lines and equipment installed on Utility's side of the metering point shall be the property of Utility whether installed by Utility or acquired by purchase, gift or contribution.

5. Termination. This Agreement shall remain in force and effect for an initial period of ten (10) years, automatically renewable for subsequent ten (10) year periods unless either party provides notice of termination or modification within two (2) years of the termination date of the current ten (10) year period or subsequent ten (10) year periods.

6. Attorney's Fees and Costs. In any litigation arising out of this Agreement, the prevailing party (City or Utility) in such litigation shall be entitled to recover reasonable attorney's fees and costs.

7. Assignment. Any clauses herein referring to "Utility" shall be presumed to apply also to any successors or assigns of Utility. This agreement shall be freely assignable by Utility to any other utility that receives Utility's Certificate by lawful PSC transfer.

8. Agreement Is Entire This Agreement supersedes all previous agreements or representations, either oral or written, in effect or implied, heretofore in effect between City and Utility, made with respect to the matters herein contained, and when duly executed, constitutes the entire Agreement between City and Utility. No additions, alterations or variations of the terms of this Agreement shall be valid nor shall provisions of this Agreement be waived by either party unless such additions, alterations, variations, or waivers are expressed in writing and duly signed

by both parties.

9. Contingencies. Notwithstanding any provision in this Agreement to the contrary, all obligations of Utility under this Agreement shall be contingent upon: (a) approval of this Agreement by the PSC; (b) the acquisition by Utility of all easements necessary for the extension of its wastewater system to the City, as aforesaid; (c) the issuance to Utility by the City, the PSC, Seminole County, the State of Florida, or the applicable governmental entity; commission, board, agency or official, of all necessary approvals, authorizations, franchises, certificates, tariff provisions and permits as are now or thereafter may be required by statute, ordinance, resolution, regulation, rule or ruling.

10. Force Majeure. In the event that performance of this Agreement by any party is prevented or interrupted as a result of any cause beyond the control of said party including but not limited to Acts of God or of the public enemy, war, national emergency, allocation of or other governmental restriction upon the use or availability of labor or materials, rationing, civil insurrection, riot, racial or civil disorder or demonstration, strike, embargo, flood, tidal wave, fire, explosion, bomb detonation, nuclear fallout, windstorm, hurricane, earthquake or other casualty or disaster or catastrophe, failure or breakdown of pumping, transmission or other facilities, exercise of the power of Eminent Domain, moratorium, governmental rules, acts, orders, restrictions, regulations, or requirements, act or action of any government or public or governmental authority, commission, board, agency, agent, official or officer, the enactment or passage or adoption heretofore or hereafter or the enforcement of any statute or resolution, decree, judgement, restraining order or injunction of any court, said party shall not be liable for such non-performance.

11. Performance Enforceable Without Waiver of Rights. Except as otherwise provided in this Agreement, the parties hereto hereby agree that in the event of failure of performance

hereunder, this Agreement shall be specifically enforceable without waiver of any rights which either party may elect by law.

12. Section Headings for Convenience Only. The section headings used in this agreement are for convenience only and have no significance in the interpretation of the body of this Agreement, and the parties hereto agree that they shall be disregarded in construing the provisions of this Agreement.

13. Document Is the Result of Mutual Draftsmanship. The terms and conditions in this Agreement are the product of mutual draftsmanship by both parties, each being represented by counsel, and any ambiguities in this Agreement or any documentation prepared pursuant to it shall not be construed against any of the parties because of authorship. The parties acknowledge that all the terms of this Agreement were negotiated at arms's length, and that each party, being represented by counsel, is acting to protect its own interest.

14. Interest. Payments due and unpaid under this agreement shall bear interest from the date due at the prevailing rate.

15. Default. Upon the occurrence of an Event of Default by the Utility, the City shall have the right to liquidated damages which, due to the difficulty of measurement and the unacceptable consequences of disconnection, the parties agree shall be equal to fifty percent (50%) of the fees and charges provided for in paragraph three (3) hereof. Said damages shall commence with the occurrence of an Event of Default and shall accrue daily and continue until said default is cured. An Event of Default shall occur upon the Utility being adjudged to be in default or bankrupt, or the failure of Utility to pay when due any amount hereunder, which non-payment shall not have been cured by Utility within ten (10) days following Utility's receipt of written notice of such non-payment, with such notice mailed as Certified Mail, return receipt requested. It

is further provided, however, that Utility's payment to the City of any disputed amounts shall not impair its rights to dispute or litigate any such said amounts. The remedies indicated by this paragraph shall be in addition to any other remedy at law or in equity, which the City might have or which might be provided in this Agreement.

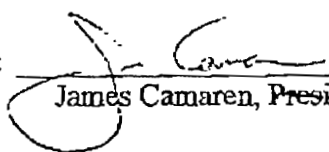

16. Upon the connection of the Utility to the City, the Utility shall be allowed to discharge the wastewater and activated sludge fluids from the Utility's wastewater treatment plant at no additional charge as part of that facility's abandonment plan, so long as the fluid is reasonably clear of grit and debris and within the normal waste strength of domestic sewage defined as 200 mg/L BOD. The Utility shall coordinate the dates and times of this discharge with the City's wastewater treatment plant so as to reasonably minimize any potential impact to that facility. This approved discharge shall specifically exclude sludge from ponds.

IN WITNESS WHEREOF, the parties hereto have set their hands and seals, the day and year first above written.

Description of Service Territory

As determined from PSC Order No. 7562:

Township 19, South, Range 30 East.

Section 34

From a Point of Beginning at the center of Section 34, run North along the West property line of Lots 7, 8, 9, 10 and 11 to the Northwest corner of said Lot 11, 3rd Ravenna Park Section of Loch Arbor; thence run East along the North boundary line of said subdivision to the Northeast corner of Lot 14; thence South to the North right-of-way line of Beth Drive; thence West and crossing Beth Drive run South along East property line of Lot 15, East and South along North and East property line of Lot 23 to the North right-of-way line of Tangelo Drive; thence run East along Tangelo Drive and crossing Tangelo Drive run South to the North right-of-way line of Hughey Street; thence East along Hughey Street to the Southwest corner of Lot 24 of 1st addition to Lockharts Subdivision; thence North and along West boundary line of Lincoln Heights Subdivision to the Northwest corner of Lot 1, Block 1, Section Two, Lincoln Heights Subdivision; thence run East along the boundary of said subdivision to the East line of Section 34; thence South to Hughey Street; thence run West along Hughey Street to the Southeast corner of Southeast 1/4 of Northeast 1/4 of Section 34; thence run South along Westerly boundary line of Ravenna Park Subdivision to the North right-of-way of Country Club Road and West along said road to the Southwest corner of Lot 14, in the Idyllwilde Subdivision; thence run North and East along the boundary of said subdivision to Vihlen Road; thence crossing Vihlen Road run North and East along the Westerly and Northerly boundaries of Ravenna Park Subdivision to a point on South line of the North 1/2 of Section 34 and the Point of Beginning.

EXHIBIT "B"

Initial Capacity Projections

Existing Connections	Connections under Developer contract	Connections Requested by Developers
241 ERCs (1)	Unknown (2)	200 ERCs (2)

(1) This figure does not include the Equivalent Residential Connections (ERCs) for service to the school, which the City has agreed that Utilities, Inc. need not pay a connection charge. The connections are listed by customer on Exhibit "D".

(2) There is a 1961 agreement (copy provided) that may obligate Utilities, Inc., to provide service to undeveloped portions of Lincoln Heights, by reference to property descriptions rather than ERCs. The apparent present assignee has recently requested service to 200 single family homes to be built on some date yet unknown. This customer will be required to reserve capacity from the City when they are ready to confirm service availability. Utilities, Inc. will keep Sanford informed of the developer's progress, if any, as well as future requests for service under this agreement, or otherwise.
