DEAR SIR

I do not believe I should have to be long to this so called club to get water

I would gladly take water from the city of N. Ft. Myers or whoever.

I can't see how noble manner own hold us hostage to belong to there club, to furnish water

They are trying to force us to join there club that is going down hill & before long the only people the will join is snow bird & a lot of them are tired of this maintenance fee but now they are calling it a membership fee's

IF they were a little different about joining the club

IF you don't have it in your deed, you can't vote on anything or they won't call on you when you put your hand up if they know you don't like there policy (at a meeting)
