Re: Docket Nos. P3149/C-95-1271; P3149/C-95-1035; P3149/TC-95-1392

In the Matter of a Complaint Against Telstar Communications, Inc. for Offering Untariffed Rates and Engaging in Discriminatory Pricing

Rochester Telecom Systems, Inc. ("Rochester Telecom") filed complaints against Telstar Communications, Inc., now known as OneStar Long Distance, Inc. ("OneStar"), on September 27, November 17, December 4, and December 7, 1995. In each complaint, Rochester Telecom alleged that OneStar had offered customers untariffed rates in violation of Minn. Stat. § 237.74, subd.1 (1994) and partook in discriminatory pricing of services in violation of Minn. Stat. § 237.74, subd. 2 (1994). Rochester Telecom provided copies of advertisements, promotional materials, price comparison sheets, and an invoice to the Minnesota Department of Public Service ("MNDPS").

The MNDPS, in a letter dated November 27, 1995, requested OneStar submit a copy of the tariff sheets reflecting the plans and rates offered and the date each was filed.

On December 8, 1995, OneStar responded that Minn. Stat. § 237.74, subd. 3, allows OneStar to offer individual pricing because of market conditions. OneStar claimed that the rates they were offering were discounted calling plans based on their Across America Rate Program and their Switched Business Customer Rate Program as currently on file with the Department.

On December 18, 1995, OneStar submitted new tariff sheets, which included 15 new calling plans.

On January 3, 1996, the Minnesota Department of Public Service ("MNDPS") filed a report on its preliminary investigation into allegations against OneStar by Rochester Telecom. The MNDPS submitted evidence of thirteen untariffed calling plans and an invoice (a fourteenth plan) with untariffed rates offered by OneStar. The MNDPS also found in bill comparisons, advertisements, and tariffed rates, evidence that OneStar was offering rates in a discriminatory manner, as no market justification had been established by OneStar in support of special pricing, nor had the Minnesota Public Utilities Commission ("MNPUC") established good cause for different rates prior to OneStar's marketing to the public. The MNDPS recommended that the MNPUC open an investigation into the discriminatory prices offered by OneStar.

On March 6, 1996, the Minnesota Public Utilities Commission ("MNPUC") issued its ORDER INITIATING FORMAL COMPLAINT PROCEEDING AND REQUIRING ANSWER, ordering a formal complaint proceeding, requiring the MNDPS to investigate the allegations and requiring OneStar to file an answer.

In response to the allegations of Rochester Telecom as well as the MNPUC's Order, the MNDPS reviewed OneStar's programs, tariff and bills of customers. The MNDPS found that from at least September 18, 1995 to April 10, 1996, OneStar was offering at least one program that was not tariffed. In response to MNDPS inquiry, OneStar filed new tariffs to reflect all of its programs and, in doing so, eliminated some programs and shifted customers of eliminated

programs to tariffed programs. With respect to the discriminatory pricing, the MNDPS found that OneStar was in compliance with Minnesota law.

On May 10, 1996 the MNPDS and OneStar filed a Joint Motion to Approve Settlement, Dismiss Complaint Proceeding, and Close Investigation (“the Settlement”). In the Settlement, OneStar admitted no liability but agreed to keep its tariffs updated to reflect its current practices and that it would otherwise comply with Minnesota law. As a condition of settlement, OneStar agreed to pay to the State of Minnesota the sum of \$5000.

On June 11, 1996 the MNPUC approved the settlement, dismissed the complaint proceeding and closed the investigation of allegations against OneStar.

West Virginia

Re: Case Nos. 01-0355-T-GI, 01-0355-T-PC
General Investigation Concerning OneStar Long Distance, Inc.

In 2001, the West Virginia Public Service Commission (“WVPSC”) investigated OneStar Long Distance, Inc. (“OneStar”) The areas of interest were as follows:

- OneStar’s practice of manually removing a monthly fee from customers’ accounts when said customers signed a term agreement.
- OneStar’s practice of charging a \$.30 per call payphone use charge on applicable West Virginia intrastate payphone-initiated calls.
- OneStar’s charging of increased fees before the tariff reflecting the increase was approved and effective.
- The name of OneStar’s Federal Universal Service Fund recovery fee, “USF and Access Fee.”

As a result of the investigation, a “Joint Stipulation of OneStar Long Distance, Inc and the Staff of the Public Service Commission of West Virginia” was devised by OneStar and the WVPSC staff. It represented a mutual resolution of the issues delineated in the above section. The resolution was effected in the following manner:

- OneStar agreed to develop a software-based method of removing the monthly fee from customers’ accounts when said customers signed a term agreement.
- OneStar reduced the amount of its West Virginia intrastate payphone use charge to \$.20 per call. This decreased amount will be in effect until such time as \$5,500.00 is recouped.
- OneStar changed the name of its Federal Universal Service Fund recovery fee to “Universal Connectivity Charge.”

The WVPSC approved the Joint Stipulation in 2001. Upon its approval, the investigation was closed and the proceeding was removed from the WVPSC’s active docket.

North Carolina

Re: Docket No. P-1113, SUB 3

Petition for Order to Show Cause and Require Report

On July 25, 2001, OneStar Communications, LLC (“OneStar Com”), OneStar, and CRG International, Inc. (“Network One”) filed a proposed joint venture with the North Carolina Utilities Commission (“NCUC”), which set out a plan wherein OneStar’s long distance authority and Network One’s local authority would be united under a new company, OneStar Com.

On April 18, 2002, Network One filed an Emergency Notice of Discontinuance of Operations. Network One, effective April 18, 2002, ceased all of its local exchange and interexchange operations in the United States due to the lack of funds. Having functioned as Network One’s underlying carrier, OneStar agreed to provide service to Network One customers to ensure that Network One’s customers did not lose service. Network One requested that an official approval of the migration of its customers to OneStar be issued by the NCUC. Accordingly, because of the imminent loss of service to customers, OneStar moved forward with the provision of local and long distance service to the affected customers.

On June 20, 2002, OneStar filed a Request to Clarify Records with the NCUC. In this Request, OneStar notified the NCUC that the proposed transfer of assets from Network One and OneStar to OneStar Com would not proceed due to Network One’s filing of Chapter 7 bankruptcy.

On July 5, 2002, the NCUC issued an Order to Show Cause, Requiring Report, and Ruling on OneStar’s Requests. The Commission ordered OneStar to do the following:

- File an application for Certificate of Public Convenience and Necessity to Offer Local Exchange and Exchange Access Telecommunications as a Competing Local Provider if it intended to pursue such authority.
- Show cause why it should not be required to pay a penalty for providing telecommunications services in North Carolina without proper certification.
- File a report describing the process OneStar used in the migration of customers from Network One to OneStar’s network and providing the status of the transfer of the assets and control of Network One and OneStar Long Distance, Inc. to OneStar Com.

OneStar filed a new application to provide local exchange and exchange access service with the NCUC on August 6, 2002. In addition, OneStar has filed answers to miscellaneous questions regarding OneStar’s provision of local service in North Carolina.

In December 2002, OneStar filed a proposed agreement in which it offered the following:

- To make an initial contribution of \$10,000.00 to the NCUC after OneStar has been granted authority to provide local exchange and exchange access service in North Carolina.
- To make four subsequent contributions of \$2,500.00 each.

In return, the NCUC would do the following:

- Vacate the July 5, 2002 Order to Show Cause and close these dockets upon satisfaction of the contribution payments.
- Construe the agreement as a full settlement of all claims and possible claims.

OneStar has not admitted any liability for any of its activities or for those alleged by the NCUC staff.

On December 18, 2002 said agreement was approved by the NCUC.

TARIFF FORMAT

A. Sheet Numbering: Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 11 and 12 would be page 11.1.

B. Sheet Revision Numbers: Revision numbers also appear in the upper right corner of each sheet where applicable. These numbers are used to indicate the most current page version on file with the Commission. For example, 4th Revised Sheet 13 cancels 3rd Revised Sheet 13. Consult the Check Sheet for the sheets currently in effect.

C. Paragraph Numbering Sequence: There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1
- 2.1.1
- 2.1.1.A
- 2.1.1.A.1
- 2.1.1.A.1.(a)
- 2.1.1.A.1.(a).I
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I..(1)

D. Check Sheets: When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff, with a cross reference to the current Revision Number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The tariff user should refer to the latest Check Sheet to find out if a particular sheet is the most current on Commission file.

APPLICATION OF TARIFF

This tariff conditions the regulations and rates applicable to intrastate resale telecommunications services provided by OneStar for telecommunications between points within the state of Florida. Resale services are furnished subject to the availability of facilities and subject to the terms and conditions of this tariff in compliance with limitations set forth in the Commission's rules. The Company's services are provided on a statewide basis and are not intended to be limited geographically. The Company offers service to all those who desire to purchase service from the Company consistent with all of the provisions of this tariff. Customers interested in the Company's services shall file a service application with the Company which fully identifies the customer, the services requested, and other information requested by the Company. The Company reserves the right to examine the credit record and check the references of all applicants and customers. The Company may examine the credit profile/record of any applicant prior to accepting the service order. The service application shall not obligate the Company to provide services or to continue to provide service if a later check of applicant's credit record is, in the opinion of the Company, contrary to the best interest of the Company. The Company may act as the Customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the customer, to allow connection of a customer's location to a service provided by the Company. The customer shall be responsible for all charges due for such service arrangement.

The services provided by OneStar are not part of a joint undertaking with any other entity providing telecommunications channels, facilities, or services, but may involve the resale of the message toll services (MTS) and wide area telecommunications services (WATS) of underlying common carriers subject to the jurisdiction of this Commission.

The rates and regulations contained in this tariff apply only to the resale services furnished by OneStar and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other common carriers for use in accessing the services of OneStar.

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

As used in this tariff, the following terms shall have the following meanings:

Access Line - An arrangement from a local exchange telephone company or other common carrier, using either dedicated or switched access, which connects a Customer's location to OneStar's location or switching center.

Application for Service - A standard order form which includes all pertinent billing, technical, and other descriptive information which will enable Carrier to provide the specified communication services.

Authorization Code - A numerical code, one or more of which may be assigned to a customer, to enable OneStar to identify the origin of the customer so it may rate and bill the call. Automatic number identification (ANI) is used as the authorization code wherever possible.

Bandwidth - The total frequency, in Hertz, allocated for a channel.

Billing Cycle - Unless otherwise specified for a particular rate plan, a monthly period will be used as the basis for recurring charges.

Business customer - A customer who subscribes to Carrier's service in the name of a business, trade, or profession, or whose usage is associated with non-personal activities.

Carrier - OneStar Long Distance, Inc.; d/b/a OneStar Long Distance; OneStar.

Commission - Used throughout this tariff to mean the Florida Public Service Commission.

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

Customer - The person, firm, corporation or other legal entity which orders the services of OneStar or purchases a OneStar Prepaid Calling Card and/or originates prepaid calls using such cards, and is responsible for the payment of charges and for compliance with the Company's tariff regulations.

Company or OneStar - Used throughout this tariff to mean OneStar Long Distance, Inc., d/b/a OneStar Long Distance, an Indiana corporation.

Dedicated Access - The customer gains entry to the Company's services by a direct path from the Customer's location to the Company's point of presence.

Dialed Access - An arrangement whereby a dialed access customer uses the public switched network facilities of a local exchange carrier to access the terminal of the Carrier or a common carrier from which the Carrier acquires service.

FLPSC, Commission, or PSC - Florida Public Service Commission.

Local Exchange Carrier (LEC) - The telephone company providing local phone service.

Prepaid Account - An inventory of Telecom Units purchased in advance by the customer, and associated with one and only one Authorization Code as contained in a specific Prepaid Calling Card.

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

Prepaid Calling Card - A card issued by the Company, containing an Authorization Code which identifies a specific Prepaid Account of Telecom Units, which enables calls to be processed, account activity to be logged, and balances to be maintained, on a prepayment basis.

Project Codes - A numerical code of which 1-999 may be used by the customer to identify certain departments or individual users or to allocate the cost of calls back to a client.

RespOrg - The carrier entity that has responsibility for the management of 800 numbers in the SMS/800, including maintaining customer records in the SMS/800. Also, the entity which accesses the SMS/800 to (a) search for and reserve 800 numbers; (b) create and maintain 800 number customer records, including call processing records; and provide a single point of contact for trouble reporting. The SMS/800 recognizes one respOrg for each 800 number.

Service Control Point (SCP) - The real-time database system in the 800 database service network that contains instructions on how customers wish their calls to be routed, terminated, or otherwise processed.

Service Management System - The main administrative support system of 800 database service. It is used to create and update customer 800 service records that are then downloaded to SCP's for handling customers' 800 service calls. The system is also used by respOrg's to reserve and assign 800 numbers.

Subscriber - The person, firm, corporation, or other entity which utilizes service provided by the Carrier. A subscriber is responsible for the payment of charges and for compliance with all terms of Carrier's tariff.

Switched Access - The customer gains entry to the Company's services by a transmission line that is switched through the local exchange carrier to reach the Company's point of presence.

SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

Telecom Unit - A measurement of telecommunications service equivalent to one minute of usage between any two points within the State of Florida.

Telecommunications - The transmission of voice communications or, subject to the transmission capabilities of the services, the transmission of data, facsimile, signaling, metering, or other similar communications.

Underlying Carrier - The telecommunications carrier whose network facilities provide the technical capability and capacity necessary for the transmission and reception of customer telecommunications traffic.

800 Service - The terms, conditions, and rates for 800 service within this tariff include all toll-free service access codes. Toll-free service access codes currently being used are 800, 888, 877, 866 and 855; and those codes reserved for future use are 844, 833, and 822. Within this tariff the term "800 service" is the service where calls are billed to the called party.

1.1 Description of Service

Carrier is a common carrier providing intrastate communications service to customers for their direct transmission of voice, data, and other types of telecommunications to points within the state of Florida.

Outbound Services - Outbound service consists of the furnishing of long distance telephone service between telephone stations located within the state of Florida. Such service is available twenty-four (24) hours a day, seven (7) days a week.

The Company's customers may place calls from any location in the state of Florida. Customers will be charged for calls based on the type of service, distance between the originating and terminating points, the time of day, the duration of the call, the minimum usage requirement, and/or the volume of use as outlined in the following Current Price List section.

Service is provided only to customers who have established an account with the Company; calls that are not identified as those of an established customer will be blocked. Access to outbound services is available to customers who subscribe to a local exchange carrier's (LEC's) end user common line service, and to their authorized users. Access is obtained by presubscription to the Company as the intrastate/interLata carrier and/or intrastate/intraLata carrier for the end user common line.

Outbound calls are originated over LEC-provided public switched facilities (Feature Groups) or dedicated access lines (DAL's) and routed over the OneStar network. The calls are terminated on the LEC-provided public switched network (Feature Groups).

1.1 Description of Service

Inbound Services - Inbound services allow callers located in the state of Florida to place toll-free calls to the customers by dialing an assigned telephone number in the toll-free area codes. Calls may be terminated either to the customer's local exchange telephone service or to a dedicated access line (DAL). Such service is available twenty-four (24) hours a day, seven (7) days a week.

Customers will be charged for calls based on the type of service, distance between the originating and terminating points, the time of day, the duration of the call, the minimum usage requirement, and/or the volume of use as outlined in the following Current Price List section.

Inbound service is provided only to customers who have established an account with the Company. Calls made to an entity not identified as an established customer will be blocked. Access to inbound service is available to customers who subscribe to a local exchange carrier's (LEC's) end user common line service, and to their authorized users. Access is obtained either by presubscription to the Company as the intrastate/interLata carrier and/or the intrastate/intraLata carrier for end user common line.

Travel Card Services - Travel Card Service consists of the furnishing of long distance telephone service between telephone stations located in the state of Florida. Such service is available twenty-four (24) hours a day, seven (7) days a week.

Travel Card service is either flat or banded as outlined in the Current Price List section.

Access to travel card service is available to customers who subscribe to the Company's service and dial an authorization code assigned to the customer by the Company.

Prepaid Calling Card Service

This service permits use of Prepaid Calling Cards for placing long distance calls. Customers may purchase OneStar Prepaid Calling Cards at a variety of retail outlets or through other distribution channels. OneStar Prepaid Calling Cards are available at a variety of face values. OneStar Prepaid Calling Card service is accessed using the OneStar toll-free number printed on the card. The caller is prompted by an automated voice response system to enter his/her Authorization Code, and then to enter the terminating telephone number. OneStar's processor tracks the call duration on a real time basis to determine the number of Telecom Units consumed. The total consumed Telecom Units for each call is deducted from the remaining Telecom Unit balance on the Customer's OneStar Prepaid Calling Card.

All calls must be charged against Prepaid Calling Card that has a sufficient Telecom Unit balance. A Customer's call will be interrupted with an announcement when the balance is about to be depleted.

1.1 Description of Service

Calls in progress will be terminated by the Company if the balance on the OneStar Prepaid Calling Card is insufficient to continue the call and the customer fails to enter the number of another valid OneStar Prepaid Calling Card prior to termination.

A card will expire on the date indicated on the card, or if no date is specified, 12 months from the date of first usage, or the date of last recharge, whichever is later. The Company will not refund unused balances.

A credit allowance for OneStar Prepaid Calling Card Service is applicable to calls that are interrupted due to poor transmission, one-way transmission, or involuntary disconnection of a call. To receive the proper credit, the customer must notify the Company at the designated toll-free customer service number printed on the OneStar Prepaid Calling Card and furnish the called number, the trouble experienced (e.g. cut-off, noisy circuit, etc.), and the approximate time that the call was placed.

When a call charged to an OneStar Prepaid Calling Card is interrupted due to cut-off, one-way transmission, or poor transmission conditions, the customer will receive a credit equivalent of one Telecom Unit.

Credit allowances for calls pursuant to OneStar Prepaid Card Service do not apply for interruptions not reported promptly to the Company or interruptions that are due to the failure of power, equipment or systems not provided by the Company.

Credit for failure of service shall be allowed only when such failure is caused by or occurs due to causes within the control of the Company.

1.1 Description of Service

The Company will block all calls beginning with the NPA "900" and NXX "976" calls, therefore such calls can not be completed.

Wholesales Services - Wholesale service is an outbound and inbound service provided to long distance resellers on a wholesale basis. Resellers are the Carrier's customers. The customers in turn sell service to end users.

Outbound services consist of the furnishing of long distance telephone service between telephone stations located within the state of Florida. Such service is available twenty-four (24) hours a day, seven (7) days a week.

Outbound calls may be placed from any location in the state of Florida. Outbound wholesale services are provided only to customers who have established an account with the Carrier; calls that are not identified as those of an established customer will be blocked. Outbound calls are originated over LEC-provided public switched facilities (Feature Groups) or dedicated access lines (DAL's) and routed over the OneStar network. The calls are terminated on the LEC-provided public switched network (Feature Groups).

Inbound wholesale services allow callers located in the state of Florida to place toll-free calls to the customer by dialing an assigned telephone number in the toll-free area codes. Calls may be terminated either to the customer's local exchange telephone service or to a dedicated access line (DAL). Such service is available twenty-four (24) hours a day, seven (7) days a week. 1.1 Description of Service

1.1.2 Timing of Calls

- 1.1.2.A All calls are timed by the Carrier in one-tenth of a minute increments. All calls which are fractions of a minute are rounded up to the next tenth of a minute increment. Timing begins at the "starting event" and ends at the "terminating event" unless otherwise specified. Time between the starting event and the terminating event is the call duration, subject to upward rounding.
- 1.1.2.B The starting event occurs when the answer supervision signal is returned to the Carrier's switch by the LEC tandem.
- 1.1.2.C The terminating event occurs when the Carrier's switch receives an on-hook (release) supervisory signal from the LEC that the calling party has hung up.

2.3.11 The Company's services are furnished upon the condition that the customer obtains adequate facilities to permit the use of said service without injurious effects upon it, the Company, or any service rendered by the Company. The customer must obtain an adequate number of access lines associated with the Company's services to handle the customer's expected demand in order to prevent interference or impairment of this service or any other service provided by the Company taking into account (1) call volume; (2) average call duration; (3) time-of-day characteristics; and (4) peak calling periods. The customer is required to designate and provide to the Company a working telephone number with enough capacity to handle the traffic. The Company will not be responsible or liable for uncompleted calls or for problems with the working telephone number or insufficient capacity or number of lines at the working telephone number designated by the customer. The Company, without incurring any liability, may disconnect or refuse to furnish the Company's services to any customer that fails to comply with these conditions. The customer will be responsible for all charges incurred as well as any access charges the Company may incur as a result of the customer's failure to comply within these rules and regulations.

2.6 Termination by Customer

Service may be terminated by the customer at any time, subject to payment in full of all charges for the period service is rendered. If termination occurs within the initial contract period, charges apply to the full initial contract period.

2.7 Initial Contract Period

The initial contract period for service is one month. Thereafter, contract periods shall be for successive one-month periods.

2.8 Payment, Billing, and Deposits

The following rules will govern payment, billing, and deposit practices of the Carrier unless inconsistent with any rule, order, or regulation of the PSC-FL. In the case of any inconsistency, the rule, order, or regulation of the PSC-FL or other provision of law shall prevail.

2.8.1 Payment and Billing

- 2.8.1.A The Company requires advance payments for recurring and non-recurring charges. This will be applied against the next month's charges, and if necessary, a new advance payment will be collected for the next month.

2.8.1.B Service is provided and billed on a billing cycle basis, beginning on the date that service becomes effective. Billing is payable upon receipt. Interest at the rate of 1.8% per billing cycle or the amount otherwise authorized by law, whichever is lower, will accrue upon any unpaid amount commencing 30 days after rendition of bills.

2.8.1.C The customer is responsible for payment of all charges for service furnished to the customer as well as to all persons using the Customer's codes, premises, or facilities, with or without the knowledge or consent of the customer. The security of the customer's authorization codes, premises, switched access connections, and direct connect facilities is the Responsibility of the customer. All calls placed using such direct connect facilities, authorization codes, premises, or switched access connections will be billed to and must be paid by the customer. Recurring charges, deposits, and non-recurring charges are billed in arrears. The initial billing for a business customer may, at Carrier's option, also include one month's estimated usage billed in advance. Thereafter, charges based on actual usage during a month and any accrued interest will be billed monthly in arrears.

No credits, refunds, or adjustments shall be granted if demand therefore is not received by the Carrier in writing within 25 day period.

2.8.1.E The customer may withhold payment for billing amounts objected (i.e. amounts associated with the objection that are set out in writing to the Carrier). The customer may telephone the Carrier, but doing so will not preserve his or her rights. Full payment will be required for all amounts not objected. Any payment due following resolution of the objection shall be due forthwith.

2.8.1.F Carrier shall be entitled to revise bills previously rendered to adjust for previously unbilled service or adjust upward or downward a bill previously rendered for a period equivalent to the applicable contract law statute of limitations.

2.8.2 Deposits

Collection, amount, and refund of deposits shall be conducted according to the rules established by the Florida Public Service Commission.

2.9 Term Agreements

Term agreements are available for one or two year periods. At the end of the term period, the term agreement will continue on a month-to-month basis until terminated by the customer or OneStar. Thirty days written notice is required to terminate such agreement. In the event that the customer terminates service with OneStar prior to the end of such term period, the customer will be billed a penalty according to the guidelines of the term agreement. Any penalties will be billed to the customer upon termination of the agreement. The customer may terminate the agreement without penalty only upon an increase of rate by the Carrier. The customer has a period of time to provide written notice to the Carrier of their desire to cancel without incurring any penalty. The period of time allowed is specified in the term agreement.

Term Agreement III Guidelines - Customers committing to a specified monthly usage level will receive discounts according to the monthly usage commitment discount schedule listed below. In the event Company is required to initiate legal proceedings to collect any amounts due to Company for regulated services, or for the enforcement of any other provision of this tariff or applicable law, Customer shall, in addition to all amounts due, be liable to Company for all reasonable costs incurred by Company in such proceedings and enforcement actions, including reasonable attorneys' fees, collection agency fees or payments, and court costs. In any such proceeding, the amount of collection costs, including attorneys' fees, due to the Company, will be determined by the court.

2.11 Inspections, Testing, and Adjustment

- 2.11.1 Carrier may, upon reasonable notice, make such tests and inspections as may be necessary to investigate the installation, operation, or maintenance of the customer's or the Carrier's equipment or connecting facilities. The Carrier may interrupt service at any time, without penalty or liability to itself, where necessary to prevent improper use of service, facilities, or connections.
- 2.11.2 Upon reasonable notice, the facilities provided by the Carrier shall be made available to Carrier for such tests and adjustments as may be necessary for their maintenance in a condition satisfactory to Carrier. No interruption allowance will be granted for the time during which such tests and adjustments are made unless such interruption exceeds twenty-four hours in length.

In those instances where customer places a call on a non-feature group line, customer may be billed by the local telephone company charges or message unit charges to access the Carrier's terminal. Carrier is not responsible for any such local or message unit charges incurred by customer in gaining access to Carrier's terminal.

2.17 Rate Centers

Each customer will have a designated primary calling number which will be the local telephone number assigned by the exchange carrier for the location from which the customer places the majority of his calls over the carrier's system. Such number shall be associated with one of the Carrier's Rate Centers. Such Rate Center shall be the "Customer's Rate Center" for purposes of this tariff. The customer's calls will be accepted only by the Carrier's terminal serving the Customer's Rate Center. The serving central office "V" and "H" coordinates are used to determine originating and terminating mileage.

2.18 Provision of Bills

Customer shall receive a single copy of invoices or billing statements following conclusion of each billing cycle. Duplicate copies will be provided on reasonable request at a charge of 15 cents per page of the bill provided.

2.19 Provision of Equipment

The customer is responsible for the provision of customer premises equipment of a type acceptable to the Carrier.

3.5 Association Programs

Programs are available to organizations (generally chambers, clubs, trade associations, buying groups, etc.) Whereby that association chooses OneStar service and also makes it available to its members. Each member wishing to have the Carrier's service is then set up on the association's program. All members will receive a monthly bill for which they are responsible. Each member will be individually evaluated, and all credit and collections functions will be based upon the individual's account. The associations will be set up on one of the following association programs:

Group Call 98-A - A program whereby the association agrees to become active participants in marketing the Carrier's service to its members. They agree to direct mail, presentations at group functions, announcements in publications, and providing the Carrier with member listings, etc. In addition, the association will provide a statement, on letterhead and signed, noting their level of participation and number of members eligible. The association may be asked to periodically review and confirm this list. The members may choose from select programs. 3.6 Directory Assistance

Access to long distance directory assistance is obtained by dialing 1 + 555-1212 for listings within the originating area code and 1 + (area code) + 555-1212 for other listings. When more than one number is requested in a single call, a charge will apply for each number requested. A charge will be applicable for each number requested, whether or not the number is listed or published.

Directory assistance calls will be provided at \$1.99 per call.

3.7 Emergency Call Handling Procedures

Emergency calls are calls regarding threats to life or destruction of property and require calls to police or fire department. Such calls are permitted at no charge. If such a call should become necessary through the Carrier's network, the customer may notify the Carrier's office through the local number or the toll-free number, 1-800-482-0000, and a credit will be issued.

3.8 Promotional Offerings

The Company may offer approved special promotions of new or existing services or products for limited time periods as approved by the Commission. These promotions will include specific tariffed starting and ending dates. All such promotions will be offered on a completely non-discriminatory basis. All such tariffed promotions must be approved by the Commission and must state exactly what charges are being reduced or waived, who is eligible, and what Customers have to do to be eligible.

3.9 Taxes

All federal, state and local taxes, assessments, surcharges, or fees, including, but not limited to, sales taxes, use taxes, gross receipts taxes, personal property taxes and municipal utilities taxes, are billed separately and are not included in the rates quoted herein.

Customer shall be responsible for and shall pay all applicable federal, state, and local taxes or surcharges, including, but not limited to, sales, use, excise, personal property and gross receipts taxes. Sales and use taxes shall be applied to all charges and shall also be applied to all applicable gross earnings and gross receipts taxes.

3.10 Dishonored Payment Charge

Customers whose payment is returned for insufficient funds, rejected for inactive account, or otherwise not processed for payment as promised by the Customer will be subject to a \$20.00 charge. Such charge will be applicable on each occasion when the Company is unable to process such payment.

3.11 800 Tailored Call Coverage

When a customer chooses to be set up on a OneStar 800 sales program and wishes to have area code programming, they will incur an initial activation fee for this service. They will also incur a monthly administration fee for this service. Any time the customer wishes to have changes made to the area code programming they will incur an additional programming charge. If the sales program that the customer is on has a monthly fee associated with it, that fee will be waived and only the \$7.50 fee associated with 800 Tailored Call Coverage will apply. The fees are as follows:

Initial Activation Fee	\$15.00

3.14 Conference Calling

Conference Calling service is available 24 hours a day, seven days a week to all OneStar customers. Conference Calling charges are included in the customers' monthly OneStar invoices and will be billed for the minutes of usage each time the service is used. The customer may conduct a conference call by using one of the following services. A variety of optional features is also available, upon request, for a nominal charge.

Conference Calling Services:

Operator Assisted Dial Out - Teleconference Coordinators will dial out to the host's list of participants prior to the start of the call, greeting them and placing them into the conference. Teleconference Coordinators are available throughout the entire conference, if needed, and long distance charges are included.

Dial In Meet-Me - Participants dial a preassigned conference call number that allows them to utilize their own long distance provider. Teleconference Coordinators are available throughout the entire conference, if needed.

Dial In 800 Meet-Me - Participants dial a preassigned 800 number to access the conference call. With this option, long distance charges are included and Teleconference Coordinators are available throughout the entire conference, if needed.

Passcode Meet-Me - Participants can access the conference call automatically without the assistance of a Teleconference Coordinator by entering a preassigned passcode upon dialing in. Teleconference Coordinators are available throughout the entire conference, if needed.

800 Passcode Meet-Me - Participants dial a preassigned 800 number to access the conference call. At the time of the call, after dialing the 800 number, participants enter the passcode and will immediately be connected to the other individuals on the call. Teleconference Coordinators are available throughout the entire conference, if needed.

3.14 Conference Calling

Prenotification (voice or fax) - A customized conference call notification form will be faxed to individuals the host requests to be on the conference call. The form requests each participant to notify the host of their attendance. The form also provides critical information, such as date of call, time of call, and the dial-in number, along with helpful hints on how to make the call a success. Participants may also be notified verbally.

Fax Confirmation - After making a reservation, the host is provided with a fax confirmation of the reservation.

Conference Recording - A 90-minute cassette tape is made of the conference and sent via regular mail. Additional copies are available.

Conference Transcription/Transcript Copies - The entire content of a conference can be transcribed and provided to the host and/or participants. This transcription can be in a written format or on a disk in a number of software formats.

Digital Conference Playback - Allows the customer to have many callers simultaneously dial into a single phone number at any time, to listen and respond to a digital recorded message or to listen to a conference call that they could not attend. Capabilities, such as fast forward, rewind, and pause, are available to all participants via remote access.

Fax on Demand - Using a touch-tone menu, participants can order documents to be faxed to them at any location, immediately, 24 hours a day, seven days a week.

3.22 Payphone Use Charge

In order to recover the Company's expenses to comply with the FCC's payphone compensation plan adopted October 9, 1997 (FCC 97-371), a charge will apply to all completed interstate and intrastate calls originating from pay telephones including:

1. Calls billed to a Company-issued access code (e.g. Company Calling Card);
2. "0+" and other calls billed collect, to a third number, to a commercial credit card, or to a calling card issued by a local exchange carrier; and
3. Calls placed via Company toll-free numbers to any customer.

No discounts shall apply to the Payphone Use Charge. Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies, and other interexchange carriers. The Payphone Use Charge applies to the initial completed call and any reoriginated call (i.e. using the "*" symbol) completed and billed as described above.

Application of Payphone Use Charge:

1. Individual calls which otherwise meet the criteria above will be identified as subject to the Payphone Use Charge when coding digits transmitted to the Company at the time the call is placed indicate that the call originates from a payphone (ANI ii digits 07, 23, 27, 29, or 70).
2. Whenever possible the Payphone Use Charge will appear on the same invoice containing the usage charges for the applicable call. The intrastate-interLata and interstate payphone-originated calls will be designated with the letter "P" in the call detail section of the OneStar invoice. The intrastate-intraLata payphone-originated calls will be designated with the letter "B" in the call detail section of the OneStar invoice.
3. At the Company's option, in cases where proper payphone coding digits are not transmitted to the Company prior to completion of a call, the Payphone Use Charge may be billed on a subsequent invoice after the Company has obtained information from a local exchange carrier which confirms that the originating station is an eligible payphone.

3.29 ONcall Service

ONcall is available twenty-four hours per day, seven days per week.

ONcall customers can designate the routing of their toll-free number to up to five predetermined locations. ONcall charges are included in the customer's monthly OneStar invoices. Voice mail and call forwarding must be set up by the customer through his or her local exchange carrier in order to allow the Company to supply ONcall service.

Subscribers may route calls by the day of week or time of day if they choose.

The following features are available to all Oncall customers:

Phone Features:

Location: This is the name identifying the location of the calling number.

Phone Number: ONcall service uses this number to locate the subscriber.

Rings: This feature is the number of times a phone will be allowed to ring before the next location is tried. The system will default to three (3) rings; however, ONcall subscribers may choose from zero (0) to nine (9) rings.

Pager: This is the number ONcall service will use when the calling party is routed to the Pager option.

Voice Mail: This is the number ONcall service will use when the calling party is routed to the Voice Mail system.

Message Retrieval: This is the number used to access Voice Mail messages left on the system. ONcall service will route calls to the subscriber's Voice Mail so they can retrieve messages.

Call Forwarding: This feature routes calls to the subscriber. The 'ON' status will divert all calls to the Call Forwarding sequence. 'ON with PIN' override allows only those callers with the override PIN to be forwarded to the Call Forwarding sequence.

Busy: This feature routes calls to the subscriber's Busy sequence. 'ON first' status routes the calls to the Busy sequence when the first phone number tried is busy.

Search Announcement: This feature allows the subscriber to determine when the 'Searching Phone Numbers' announcement should be played. The announcement will inform the caller that the Service is trying another number and that they can either continue holding or leave a message. The announcement may be played after the first number is tried, after each number is tried, or may not be played at all.

Override PIN: A number issued to ONcall subscribers who want to allow selected callers to override the 'Do Not Disturb' or the Call Forwarding' feature.

Access PIN: A number used by ONcall subscribers to access Oncall service for the purpose of making outgoing calls, retrieving messages, or administering feature data.

EXHIBIT D

David Gibson, Vice President Network Operations

Mr. Gibson joined OneStar in 1995 in the position consisting of network data entry. He comes from a background weighed heavily in accounting and systems support. After two months with OneStar he had automated his job functions and moved more into a systems support position. While gaining knowledge of the systems and automating many of the CARE, Network load, CABS and back office functions, he also gained a very strong telecommunications knowledge. Mr. Gibson moved into the Network Department in 1997 dealing primarily with the Network costing, design and efficiency. As OneStar has grown, Mr. Gibson's responsibilities have also grown to include RespOrg, Engineering, Switch Operations, Costing, CABS, and NOC. Mr. Gibson is Seimen's certified, and has attended various other training sessions pertaining to Network components. During his tenure at OneStar he has been responsible for the integration of 3 new switches to the network, 3 new installations and certifications, 2 switch decommissions, and crucial to establishing all supporting systems to the network. Mr. Gibson's current duties have been refocused to include the key Network areas of engineering, operations, and optimization, while he continues to provide input and direction to various other areas.

Michael Sibrel, Director of Network Operations

Mr. Sibrel joined OneStar in 1999 as a project manager after serving as a Regional Operations Manager for KLF Business Communication Systems. As a regional operations manager for KLF, Mr. Sibrel had responsibility for installation/service of customer equipment throughout a multi-state region and Mexico. Prior to his involvement with KLF he served in various capacities in Public Safety/Law Enforcement. Mr. Sibrel's migration to telecommunications was a logical step after serving from 1990 – 1996 as Director of a Public Safety Communications E9-1-1 Center. In that capacity, Mr. Sibrel implemented a communications center and E9-1-1 system to provide emergency services to a jurisdiction that provided services to twenty-eight emergency service agencies, including police, fire, and EMS, as well as, implementing a first of it's kind E9-1-1 system utilizing multiple telecom switches. In 2000, he was named as OneStar's NOC Manager and charged with the implementation of a functional Network Operations Center. In 2002, he was promoted to Director of Network Operations.

Network Operations:

OneStar Network Management has determined the need to convert the existing DCO TDM network to a packet based IP/ATM network. Network management has developed a three-phased approach:

- (1) Convert the "core" backbone network (IMT or switch-to-switch transport) to a packet network
- (2) Add Class 5 telephony features to the network and build out to the "edge" (end office and customer premise) of the network
- (3) As a component of the network migration utilize network configuration opportunities such as Verizon's IP gateway, NNI and peering connections to expand backbone footprint, and other LEC/CLEC/Carrier solutions to accelerate the eventual deconstruction of the existing TDM network

The current OneStar Network consists of Siemens DCO switches located in Portland, Maine; Boston, Massachusetts; Richmond, Virginia; Indianapolis, Indiana; Rochester, Minnesota; and Seattle, Washington. With the addition of network facilities from Network One, an additional switch will be added in Washington, D.C. These switches are all trunked together, as well as, an extensive FGD network to the various LEC Tandems. Roughly 80% of all of OneStar traffic originates or terminates via these switches and on the FGD network.

Network Implementation:

Based upon the analysis of various vendors and deployments of other carriers, OneStar has decided to implement ATM in the backbone environment as the core transport. OneStar shall utilize the ATM network for the Quality of Service (QoS) capabilities and the call management attributes evident in this backbone technology. All services, during the early stages of implementation, will be transported over the ATM backbone (VoIP over ATM, VoATM). As the technology is developed OneStar's network will migrate segments of traffic to a "pure" IP backbone that can provide higher value MPLS/QoS capabilities. With optical technology, this migration will also compliment or replace portions of traffic onto the DWDM layer thereby completely bypassing the IP/ATM layer from a routing perspective. These decisions will be considered and made as OneStar's exposure to the technology increases, and the technology becomes available.

Due to market analysis, the initial installation of ICP facilities shall be directed to Portland, Maine. The plan is to immediately build-out the network into the remaining New England states, except for Connecticut. Factors relating to existing customer densities (both local resell and long distance), customer opportunity density, existing competitive influences, potential partnerships with Utility companies and or other companies to allow for Bell bypass to the last mile (including wireless loop technology), have been considered and have influenced the Company's direction.

There is little doubt with regard to the influence the LECs will have in obtaining the "last mile" to the subscriber, however, there are opportunities that will allow OneStar to bypass the LEC for the last mile solution. Choices for LEC bypass are utility and cable companies, wireless loop applications, along with other CLEC and ILEC wholesalers. While there is a huge push in the utility and cable companies to provide some of the traditional telephony services, as well as new broadband solutions, there is also an emerging opportunity with CLECs offering wholesale access

to network elements. OneStar's network build strategy includes partnering, merging, and when advantageous, acquiring relationships.

The utilization of smart build strategies, including the installation of IP switching solutions, and core optical and ATM/IP access equipment within the utilities infrastructure, sets the stage for low cost local services at very attractive profit margins. By combining the local features with the application side of Internet, cable and other content-based services, there becomes an entrenched revenue-producing customer base utilizing a broad mixture of OneStar and Utility services.

OneStar has concluded that the smart build strategy will be utilized initially in Maine and Massachusetts, while the Company will deliver local services through resell methods in New Hampshire, Vermont and Rhode Island. Specifically, the Company will provide subscribers facility-based local services in Maine from the Portland, South Portland, Lewiston, Bangor, Augusta, and Biddeford end offices. In Massachusetts, OneStar shall distribute services from the Boston, Back Bay - 2, Boston - Harrison Avenue, Boston - Bowdoin - 2, Lawrence, Worcester, Fall River, Brookline, New Bedford, Brockton, and Newton end offices.

The following diagrams represent OneStar's deployment of ATM Core Sites, (figure 1) a representative display of a OneStar regional co-location site, (figure 2) and the regional configurations utilizing the legacy Siemens DCO switches (figure 3).

Regional CO

- Advantages of TNX-210 and TNX-1100:**
- end to end provisioning
 - allows for dynamic SPVX circuits through ATM network
 - provides overbooking factors on VBR provisioning
 - advanced ATM scheduling, shaping and queuing
 - scalable with PNNI for additional resilient links
 - supports MPLS with existing hardware
 - extremely large call buffers during peak utilizations
 - completely compatible networks across both ATM platforms
 - Quality of Service and Capacity Aware Routing capabilities

NOC Implementation:

The Network Operations Center implementation will be combinations of outsource and in house resources. The NOC will include all fault management and prevention, fraud management, and escalated trouble issues. To assist in management issues and staffing levels during early implementation, OneStar will contract support from selected vendors' Professional Services Divisions.

Advantages of TNX-210 and TNX-1100:

- + end to end provisioning
- + allows for dynamic SPVX circuits through ATM network
- + provides overbooking factors on VBR provisioning
- + advanced ATM scheduling, shaping and queueing
- + scalable with PNNI for additional resilient links
- + supports MPLS with existing hardware
- + extremely large cell buffers during peak utilizations
- + completely compatible netmods across both ATM platforms
- + Quality of Service and Capacity Aware Routing capabilities

It is anticipated that vendor-based Professional Services will be utilized heavily in the first few months and less during the latter stages of deployments and on-going support. During the transition, OneStar will hire, acquire and train existing staff to handle all of these duties. It is envisioned that the vendors' services will be used to help manage the "off" hours of coverage in the late evenings and weekends as supplemental coverage to OneStar staff, in lieu of OneStar staffing these functions in the early stages of deployment.
