Public Service Commission
Mrs. Paola J. Isler.

Dear Sirs,

As we spoke by phone a few days ago, we would like to let you know the reasons of why we have not continue with the project that we had with the telecommunication and pay phone business.

After September 11 all our projections dropped, because of all the changes in the market and of course in our sales.

We have been trying to get some finance help from the Small Business but they also had changed their rules and now it is almost impossible.

We are fighting to keep alive, but there is not way in the near future that we can start with the project of the payphones (project that we never started).

This letter is to let you know our intentions not to continue with this license, as we said before, we could not even buy the equipments neither installed any of them as were planned.

We are sending a check for \$67.00 dollars that we hope will pay for any inconvenience, again, thank you.

Sincerely,
