Dear Ms. Gervasi

Thank you for your letter dated February 6, 2003. It is always nice to receive a letter from you, even when it is not always positive. I know that you are doing what you have to do.

As Mr. Sundstrom and their client BSU have decided to steal our property, if it is possible, we have to continue our fight against thief,s, we therefore have to kindly request a continuence of our application request for our certificate, until the ownership problem will be solved. On March 7, we will be in court again, and hopefully solve this problem. The Sheriffs sale is phony from a to z. . In the past 2 years Mr. Pfaff did not even make an effort to collect as he knew his Sheriffs sale has no value,. In fact it was Mr Sandstrom who brought it to the table, only to hurt us and grab everything for BSU.

The fact remains that J. Fritz Holzberg has build , paid,and never transferred this facility into other hands .. When BSU. signed with us a presale agreement in 1991,they cancelled this agreement before the contract was signed, they admitted this to you on July 24 2002 through Mr Friedman,but began to collect monthly fees from the homeowners, while we paid for the maintainingof the system.. I wonder if you please, could provide me with the written law where I can see that we are not permitted to collect money for the services and BUS. can get all the income fees and connection payments for something they do not own.

I really don,t know with which other document I shall provide you to proof that we are the owner of the sewer collection system in Forest Mere, If someone does belief that he is the owner, why is he not claiming it. The last package I did send you included Original proof that we have build the system and recorded,maintained from day one untill today and paid all the bills. Regarding our finances to maintain the system, why did nobody ask where the money came from until today for the last, almost 18 years.

With kind regards

J.Fritz Holzberg
