RE: Docket Nos. 981834-TP and 990321-TP

We will be filing the testimony of staff in the above docket. As we spoke about this morning, the outside consultants have each submitted a version of their testimony which has confidential information, a disc which also has this information, and the redacted copies. The information in their confidential testimony should maintain its confidential classification, as that information is the subject of various confidentiality requests submitted by the parties. Both witness Gabel and witness Curry utilize information for which Verizon has sought confidentiality (Document No. 01120-03, seeking confidential classification of Documents No. 01121-03 and 01123-03), Sprint has sought confidentiality (Document No. 01150-03, seeking confidential classification of Documents No. 01152-03 and 01153-03) and BellSouth has sought confidentiality (Document No. 01946-03, seeking confidential classification of Documents No. 01947-03).
