Re: Docket # 020745-SU Island Environmental Utility, Inc.

I have a copy of the letter to you from Rose etcetera and their motion to strike objections for the usual inane reasons. I wouldn't like to dignify the questionnaire by using the nomenclature "interrogatory".

I will answer any questions relating to septics and wastewater. Whether or not I have aliases is ultra vires. It's not germane. Most of the questions are childish.

FPSC-COMMISSION CLERK

Blanca S. Bayo  
Director  
PUBLIC SERVICE COMMISSION  
STATE OF FLORIDA  
2540 Shumard Oak Boulevard  
Tallahassee, FL 32399-0850

Thanks Ms. Bayo, for your letter dated January fifteenth, which I received on May second, advising of docket schedules. Ever noticed that proceedings of this kind are always held in the summer and autumn months when a large portion of taxpayers are out of the country? In any event, please change the timing to January through April.

Do you suppose the Public Service Commission would be interested in providing a public service to the taxpayers of Palm Island? It would be pretty easy. Hold a referendum. A plebiscite. "Do you want to have a graywater facility at great individual cost to you, or do you want to remain on septic systems which adequately perform." You'd have an eighty percentile response in favour of septics. There's an adage. An axiom, if you like. "If it ain't broke, don't fix it!"

Does anyone up there really care about the taxpayers on Palm Island ?
