RE: FERC Technical Conference in Tallahassee

On September 15, 2003, the Florida Public Service Commission (FPSC) will host a Federal Energy Regulatory Commission (FERC) Technical Conference so that FERC may benefit from Florida's perspective on FERC's regional transmission organization (RTO) and standard market design (SMD) initiatives. This technical conference will provide the FPSC, as well as Florida market participants and other interested persons, a forum to discuss FERC's wholesale power market design proposals in anticipation of final rules on SMD in the future.

In order to ensure that the issues most important to Florida are addressed, I encourage all interested persons to contact Roberta Bass in the Office of Market Monitoring to relay your ideas for the September 15th technical conference. I strongly believe that stakeholder input, even in the planning stage, is critical in maximizing this rare opportunity to convey Florida's needs with respect to market design at the upcoming FERC Technical Conference in Tallahassee. Roberta Bass may be reached at (850) 413-6654.

I look forward to receiving your input at the September 15th conference.

Sincerely,

Charles M. Davidson
Charles M. Davidson
Commissioner

Importance: High

Katrina,

Am I correct that Commissioner Davidson's letter has already been mailed to parties and interested persons on the attached list and that the copy CCA received was a copy for the Docket file only?

Subject: Filing in Docket 020233

Blanca, we just received a filing (document number 07068-03) in Docket 020233. It is a letter date July 30, 2003 from Commissioner Davidson to Mr. Mark Sundback of Andrews & Kurth law firm. Do we need to send the letter to the parties and interested persons in the docket, or it has already been issued and we just need to file it in the docket?

Thanks!
