Re: 2003 Incumbent Local Exchange Carrier (ILEC) Data Request

Dear Ms. Bayo:

On August 21, 2003, Verizon Florida is filing with the Office of Market Monitoring and Strategic Analysis responses to Staff's 2003 Incumbent Local Exchange Carrier (ILEC) data request on competition.

Verizon considers the responses to questions 1-8 (exclusive of number 7 which did not require a response) and 12 on the enclosed CD to be proprietary and filed under a claim of confidentiality pursuant to 364.183(1), Florida Statutes and Rule 25-22.006(5). In that regard, one redacted CD and a sealed envelope containing one CD with the confidential information highlighted is enclosed. Verizon understands the information must be kept confidential until returned to the Company. The confidential information contains CLEC specific data which Verizon believes the CLEC would consider highly confidential as it details the wire centers and the types of services the CLEC is providing in Verizon's service area.

If you need additional information, please contact me or Linda Rossy at (813) 483-2525.
