Re: Fuel and Purchased Power Cost Recovery Clause with Generating
Performance Incentive Factor; FPSC Docket No. 030001-EI

CONFIDENTIAL DOCUMENTS ENCLOSED

Dear Ms. Bayo:

We enclose for filing on behalf of Tampa Electric Company a single copy of a confidential version of page 23 of a supplemental testimony of Brent Dibner marked "revised October 16, 2003". As explained in the separate request for confidential classification we are filing this date the revised October 16, 2003 page 23 of Mr. Dibner's testimony still contains certain information, highlighted in yellow, that is in need of confidential treatment. The enclosed highlighted version of page 23 eliminates the yellow highlighting on certain information contained in the company's September 25, 2003 filing that no longer requires confidential treatment.

We would appreciate your substituting the enclosed revised version of page 23 of Mr. Dibner's supplemental testimony in place of the corresponding page in the original filing. We also request that the confidential page 23 from Mr. Dibner's September 25 filing be returned to the undersigned as it still contains the confidential information highlighted in the enclosed revised version.

Please acknowledge receipt and filing of the above by stamping the supplicate copy of this letter and returning same to this writer.

Thank you for your assistance in connection with this matter.

Sincerely,

James D. Beasley

AND
CAPACITY COST RECOVERY

PROJECTIONS
JANUARY 2004 THROUGH DECEMBER 2004

SUPPLEMENTAL TESTIMONY AND EXHIBIT
OF

BRENT DIBNER
ON BEHALF OF
TAMPA ELECTRIC COMPANY
CONFIDENTIAL VERSION

REVISED OCTOBER 16, 2003

DECLASSIFIED

DECLASSIFIED

1 Overall, the combined market waterborne transportation
2 rate as of January 1, 2004 is \$17.90 per ton. This is
3 \$0.79 per ton less than the rates paid during the third
4 quarter of 2003 under the existing contract. The
5 individual segment market rates that I recommended are
6 described below.

7
8 The average market rate for inland river transportation
9 is \$7.47 per ton. This average rate was calculated using
10 the estimated rates of the river locations where Tampa
11 Electric has contracted for delivery of its 2004 coal
12 supply. The market rate for terminal services is \$2.45
13 per ton, which includes a \$0.20 fleeting charge. The
14 market rate for ocean transportation of Tampa Electric's
15 maximum annual requirements of 5.5 million tons is \$7.98
16 per ton. These rates total to the \$17.90 per ton market
17 rate listed above.

18
19 Tampa Electric should present the market rates I have
20 established for each segment, as detailed in my exhibit,
21 to TECO Transport for its decision to meet or beat the
22 market price for services beginning January 1, 2004, as
23 required by the terms of the existing contract. If TECO
24 Transport opts to provide service under the contractual
25 "Right of First Refusal" clause, Tampa Electric should
