DATE: October 16, 2003
TO: Blanca Bayó, Director, Division of the Commission Clerk & Administrative Services
FROM: Cochran Keating, Office of General Counsel *WCK*
 Michael Haff, Division of Economic Regulation *MSH*
RE: Docket No. 030884-EU - Objections to Florida Power & Light Company's 2003 request for proposals filed August 25, 2003, by Florida Partnership for Affordable Competitive Energy (PACE) and some individual member companies.

At its September 30, 2003, Agenda Conference, the Commission considered PACE's objections to FPL's recent request for proposals for additional generating capacity. Pursuant to the informal process contemplated in Rule 25-24.032, Florida Administrative Code, the Commissioners discussed the objections, informally provided the parties their opinions regarding the request for proposals, and, consistent with the preliminary nature of the process, decided that a written opinion was not contemplated. Accordingly, the Commission directed the staff to administratively close the docket.

A transcript of the agenda discussion is now available in the docket file, and there is no further action for the Commission to take in this case. Therefore, the docket should be closed.
