

Verizon Florida Inc.'s Objections and Responses to
FCCA's First Set of Interrogatories (Nos. 1-18)
Docket No. 030851-TP
Page 12

it purports to impose upon Verizon a duty to disclose information or documents that is or are outside Verizon's possession, custody or control.

- a. There are ** ** DLCs planned for 2004. This is the longest available data.
- b. An additional ** ** installed NGDLC lines are planned for 2004. This is the longest available data. **REDACTED**

15. Provide the number, for the most recent time period for which data is available, of UNE loops served by IDLC and NGDLC arrangements in Florida that have been provided to a CLEC:
 - a. With unbundled local switching;
 - b. Without unbundled local switching.

RESPONSE:

Verizon objects to the discovery request to the extent that it is overbroad, unduly burdensome, and/or seeks information that is neither relevant to this proceeding nor reasonably calculated to lead to the discovery of admissible evidence. Verizon further objects because the discovery request seeks information that is beyond the scope of the impairment analysis at issue in the Commission's review of Verizon's case. Information regarding operational and economic factors that are relevant to a potential deployment case is irrelevant to the question of whether Verizon has satisfied the applicable "trigger" – which is the only impairment determination that is at issue in this proceeding. *See Triennial Review Order* ¶ 425, n. 1300 (economic and operational factors that are used in a potential deployment case "come into play only if . . . [the FCC's] deployment triggers are not met."). Verizon objects to the discovery request to the extent that it purports to impose upon Verizon a duty to disclose information or documents that is or are outside Verizon's possession, custody or control.

16. Please state the applicable charges, if any, and the amount of time it takes to transfer a customer's IDLC loop to:
 - a. UDLC;
 - b. spare copper.

RESPONSE:

Verizon objects to the discovery request to the extent that it is overbroad, unduly burdensome, and/or seeks information that is neither relevant to this proceeding nor reasonably calculated to lead to the discovery of admissible evidence.

DOCUMENT NUMBER-DATE

11590 NOV 18 8

FPSC-COMMISSION CLERK

Legend:

UDD	UNE Transport (includes DS1, DS3)
ULD	UNE Loop Designed
ULN	UNE Loop Non Designed
UPLRBN	UNE Platform Business
UPLRR	UNE Platform Residence

Notes:

The data below represents the number of service orders completed in the months shown for the loop types tracked by Verizon, and corresponds to the data reported by Verizon for the PR-6 metrics within the FCC Performance Measurements reports. Since the PR-6-01 metric reports orders completed in the prior month rather than the current month, the data below for the UDD and ULD products have been shifted one month to align the month the service orders actually completed with the month shown below. Data shown below for the remaining products (ULN, UPLRBN, UPLRR) corresponds directly with the data reported by Verizon under metric PR-6-02.
