PRICE LIST FORMAT

- A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Price List. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision numbers** - also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, defends, etc. the FPSC follows in their Price List approval process, the most current sheet number on file with the Commission is not always the Price List page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level.

- D. Check Sheets** - When a Price List filing is made with the FPSC, an updated check sheet accompanies the Price List filing. The check sheet lists the sheets contained in the Price List, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, pages) The Price List user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

Issued: 09/15/03
By:

Effective: _____

2.19 Fractional Charges

Charges for a fractional part of a month are calculated by counting the number of days remaining in the billing period after service is furnished. Divide that number of days by 30 days (billing period). The result is then multiplied by the applicable monthly service charge to arrive at the appropriate fractional monthly service charge.

2.20 Restoration of Service
