DECEMBER 2, 2003

RE: Docket No. 030752-EI - Petition for approval of green power pricing research project as part of Demand Side Management Plan by Florida Power & Light Company. (Deferred from November 3, 2003 conference; revised recommendation filed.)

ISSUE 1: Should Florida Power & Light Company's petition for approval of a Green Power Pricing Research Project be approved?

RECOMMENDATION: Yes. The use of Tradeable Renewable Energy Credits in FPL's proposed voluntary research project provides a mechanism for interested customers to encourage renewable development. FPL should be authorized to: 1) incorporate the project into its demand-side management plan; 2) report all revenues and expenses through its ECCR clause; 3) recover reasonable and prudent project administrative costs up to \$1.5 million if total expenses exceed total revenues; and, 4) defer excess revenues as a regulatory liability and reinvest these revenues in the project, after the general body of ratepayers has been compensated with interest for any initial costs. FPL should be required to provide semi-annual progress reports to the Commission.

**MODIFIED**

*Staff's recommendation was approved with the additional reporting requirements and other modifications discussed at the conference.*

ISSUE 2: Should this docket be closed?

RECOMMENDATION: Yes. If Issue 1 is approved, this tariff should become effective on December 2, 2003 ~~November 3, 2003~~. If a protest is filed within 21 days of the issuance of the order, this tariff should remain in effect with any increase held subject to refund pending resolution of the protest. If no timely protest is filed, this docket should be closed upon the issuance of a consummating order.
