FPSC-COMMISSION CLERK

REQUEST: For residential telephone subscribers in BellSouth's Florida service territory, what is the average number of access lines per residential household?

RESPONSE: Using October 2003 data, BellSouth estimates that the average number of access lines per residential household is *** PROPRIETARY***. This number is equal to the total in-service quantity for federal residential subscriber line charges divided by the in-service quantity for residential primary line subscriber line charges.

This information contains proprietary data and is being provided subject to the Notice of Intent and Motion for Protective Order filed contemporaneously with these responses.

RESPONSE BY: Steve Bigelow
