Dated: November 7, 2003
Item No. 5
PUBLIC VERSION

This circuit is in a cable that currently is attached to a bridge that DOT is tearing down and forcing BellSouth to move its facilities. The facility must be vacated by the end of March 2004.

This circuit is in a cable that is deteriorating. BellSouth has no choice but to replace the cable. All but three circuits have been removed. The CLEC's have been notified that September 2003 was the final date. The remaining circuits may fail at anytime and there is nothing BellSouth can do.

This is a voice grade, complete choice service and will not be affected by the move to fiber cable.

This is a voice grade service and will not be affected by the move to fiber cable.

This is involved in a road move and BellSouth doesn't get a vote. The requirement is that we abandoned the cable by the end of 2/2004.

This involved in a road move. The requirement is that we abandoned the cable by 4/2004.
