Re: Docket No. 030159-EU

Dear Mr. Sloan:

This will acknowledge receipt of a petition by City of Parker for declaratory statement concerning City's application of its Comprehensive Plan, Land Development Regulations, and City Codes and Ordinances to Gulf Power Company's proposed aerial power transmission line planned to travel from private property located within the City, crossing the shoreline of the City, and running across St. Andrew Bay, which was filed in this office on February 11, 2003, and assigned the above-referenced docket number. Appropriate staff members will be advised.

Mediation may be available to resolve any dispute in this docket. If mediation is conducted, it does not affect a substantially interested person's right to an administrative hearing. For more information, contact the Office of General Counsel at (850) 413-6248 or FAX (850) 413-7180.

Re: Gulf Power transmission line and the bay in Bay County

This is a comment based on many years of construction and hurricane cleanup starting in 1969.

There are 2 prime reasons to support the position taken by of the City of Parker.

1. The subaqueous line would be more likely to survive a strong hurricane, as shown by the current line that has been in place for more than forty (40) years.
2. The overhead lines require periodical maintenance requiring aerial cranes and specialized personnel. If these costs are amortized over the life of the line, the 30 to 50 year cost would be less than the over bay option.

Add these factors to the ones presented by the Parker City officials and residences aand I believe you will approve the subaqueous power lines. The cost of long distance directional boring installation has actually decreased over the last few years, providing a better cost benefit ratio for this project.

Than you for your time and attention on the matter.

Respectfully yours

5/6/2003
