DATE: January 23, 2004
TO: Mary Andrews Bane, Executive Director
FROM: Tim Devlin, Director, Division of Economic Regulation
RE: Request Changes in Staff Recommendation, Docket No. 030999-EG –Petition for approval of modifications to residential new construction and residential energy management DSM programs by Progress Energy Florida, Inc.

Staff is requesting approval to make minor corrections to the above mentioned recommendation. These changes are as follows:

- 1. The word "monitorable" is spelled incorrectly eight times (pgs. 3, 4, 5, 7, 8).
- 2. The word "studies" was changed to "study" on page 7.
- 3. Issue three, line four of the recommendation statement and staff analysis section, insert the words "staff's recommendation in Issue 1 or" between the words "approve" and "the".

These changes do not affect the issue or staff recommendation and, therefore, an oral modification at agenda conference should not be necessary.
