## RESPONSE to Motion to ABATE Proceeding and to REUSE CASE ASSIGNMENT Scheduling Record

As a pro se litigant I, Linda Bamfield am  
opposed to the motion and object based on:

1. On Feb 27, 2004 I spoke with Valerie Lord  
of Rose, Sundstrum & Bentley, the attorney for IEU,  
and stated to them that I supported the  
PSC staff recommendation to close this docket.
2. the original legal notice, as published in the  
newspaper <sup>document</sup> 8823-02 is not accurate and does not  
include the <sup>water</sup> area for which IEU has filed other  
legal descriptions for.
3. the application by IEU is still incomplete  
despite numerous requests for missing, inaccurate,  
or incomplete information.
4. the legal description has changed at least 3 times  
since the original application and the principals at  
least twice from the original.

5. There is no indication on the part of Char. Co. that it intends ~~that~~ to amend its comprehensive Plan in the near future.

6. If the docket is closed without prejudice, IEU is free to file a new application, where ~~we~~ they can "start clean" and not have conflicting information on file. And A new notice to the public can be advertized with the correct legal.

7. If the docket is closed and IEU submits a new application than everyone involved ~~who~~ will have adequate time and correct information. (instead of having to make assumptions based on error changing, amended, late filed, revised and corrected information) to respond to the issues.

8. Linda Bamfield requests that the commission deny the motion to abate and close this docket.

I hereby certify I have sent copies by USmail on March 5, 2004
