ORIGINAL

You can return it to Verizon. Thanks.

My first question (way down at the bottom of the e-mail) was whether we could return the documents to the source (Verizon). I wasn't sure from your first response if you were indicating 07447-03 was not needed any longer by the PSC and could be returned to the source.

Are you saying we can return it to Verizon, or are you simply saying staff is going to check it back in with us to hold for later use?

I'm not sure if you're asking me if we need you to retain it for our future use, or do we think the company wants it back. If it is the former, we have no further use of the document, so you can return or destroy as your procedures call for.

When Vic returns 07447-03, should we then return it to Verizon?

Kay, Vic Cordiano will return doc. 07447-03. Sue Ollila says she still needs the other docs. We were going to discuss today how long she might need them, but she is out sick.

DOCUMENT NUMBER-DATE

03473 MAR 15 3

FPSC-COMMISSION CLERK

Would you please have someone check on these confidential documents? I believe they were requested by us but are currently still located in CCA. I believe the Verizon documents regarding intraLATA toll market share were requested by Sue for her review of Verizon's toll market share. I don't know about the FCC Form 477.

If these documents may be returned, please let Kay now. She said a response on Monday would be fine.

Roberta, these documents:

07447-03 filed 8/14/03 by Verizon - FCC Form 477, provided to PSC per informal MMS data request,

12480-03 filed 12/5/03 by Verizon - Info in response to staff's 9/26/03 data request regarding intraLATA toll market share - September 2003 data, and

12483-03 filed 12/5/03 by Verizon - Info in response to staff's 9/26/03 data request regarding intraLATA toll market share

were all filed in 2003 and are all confidential and I BELIEVE fall into MMS's realm of responsibility.

Can the documents be returned to the source?

Kay
