Enclosed is a site map of the area concerned from the petitioners of the Villa Del Rio sub-division which is also known as Riverside Villas. We are sandwiched in between Heritage Lake and Seven Springs subdivisions. We are just East of Little Road with our entrance being an extension of Old Hwy 54 going East.

Our petitioners have been burdened for many years with the foul odors and discolored water provided by Aloha and have finally decided to take the initiative to petition to be removed from the Aloha service area and to be serviced by Pasco Utilities.

Hopefully, our wishes will be granted so we may get on with our lives and not have to be concerned with something that should be taken for granted. In other words, we don't wish to be thinking about water each and every day of our lives. Any day we did not have an offensive odor (very few of these) was considered a good day.

The attendance of the petitioners on April 8, 2004 should have sent a loud and clear message that we deserve a water company and system that is both responsive to our needs and can provide the quality of water that other areas enjoy. Hopefully our wish will be granted and the ten year dispute can be settled at last.

Respectfully;

John Parese
