RE: Miami Corp-Farmton  
request to establish  
water district.

021256-WU

Gentlemen:

I have already written to you once before in reference to allowing Farmton to establish their own water district.

Reading the Daytona News Journal recently, I felt I had to respond again.

Volusia County, Edgewater, New Smyrna Beach and Titusville seem to feel it is their God given right to take the water from Farmton (for nothing??) and sell it to their consumers. This is wrong. Why not give Farmton the permit to establish their waterdistrict, and sell their water to the municipalities.

All those cities complaining that it will open the door for Farmton to develop, are correct. It does'nt take a rocket scientist to figure out that 30 or 40 years from now there will be nothing to develop except Farmton, as the complainers are doing everything in their power to fill every vacant lot in Volusia county, as well as the cities, with housing.

Senator King says " No one knows for sure who owns the water that is underground." However, possession is 9/10th of the law, so give the permit to Farmton.
