RE: Docket No. 040030-EG - Petition for approval of numeric conservation goals by JEA.

Issue 1: Should the Commission approve JEA's numeric conservation goals for the 2005-2014 period?

Recommendation: Yes. JEA's evaluation methodology is reasonable and adequately meets the requirements of Rule 25-17.0021, Florida Administrative Code. JEA appropriately evaluated the cost-effectiveness of measures using the RIM test. While two measures were cost-effective, neither could be expected to have enough participation to justify creation of a DSM program. As a result, JEA's proposed zero goals for the 2005-2014 period should be approved.

Issue 2: Should the Commission acknowledge JEA's Demand-Side Management Plan?

Recommendation: Yes. If staff's recommendation in Issue 1 is approved, JEA's numeric conservation goals will be set to zero and JEA should not be required to file a DSM Plan. However, JEA has already filed a DSM Plan, consisting of existing DSM programs, which should be acknowledged by the Commission for informational purposes. JEA should not be required to file program standards.

APPROVED

Issue 3: Should this docket be closed?

Recommendation: Yes. If no person whose substantial interests are affected by the proposed agency action files a protest within 21 days of the issuance of the order, this docket should be closed upon the issuance of a Consummating Order.
