undockeded

Time Warner Telecom of Florida, L.P. TA013

Table - 1

Note - This data was extrapolated based on the known number of active TNs per exchange and the known number of VGEs and Access Lines per market. The access lines were further extrapolated to reflect SP vs Other based on the fact that 75% of TWTC's revenues are dervied from its own network. Note - All GigE services have been provisioned over our own fiber optic facilities.
