Explanation of Proprietary Information

1. This information contains business information related to competitive interests of BellSouth that is proprietary to BellSouth. The documents contain actual unit cost information for discrete cost elements. Public disclosure of this information would provide BellSouth's competitors with an advantage in that they would know the price or rate below which BellSouth could not provide the service. The data is valuable to competitors and potential competitors in formulating strategic plans for entry, pricing, marketing, and overall business strategies concerning these services. This same information on competitors is not available to BellSouth. Disclosure of this data would impair the competitive business and cause harm to BellSouth. Consequently, this information should be classified as proprietary, confidential business information pursuant to Section 364.183, Florida Statutes and is exempt from the Open Records Act.
