Subject: 040000 - RE: Reclassified documents: Intrado & PAETEC

Ok,
I will declassify Confidential DN 07501-04 and place it in the public docket file and for Confidential DN 07810-04, I will put a remark in CMS stating that the Word portion of the CD has been declassified, with the Excel files remaining confidential.
Thanks !

Yes to both questions.

Thanks for your help with this.

So, per your e-mail, I will declassify Confidential DN 07501-04 and place it in the public docket file ????

And for Confidential DN 07810-04, I will put a remark in CMS stating that the Word portion of the CD has been declassified, with the Excel files remaining confidential ???

Thanks.

Intrado (TX607) filed its response to the 2004 CLEC data request as confidential (DN 07501). On August 17, in response to my request, Intrado replaced its confidential filing with a public filing (DN 08930). Intrado's response to the data request was that it was not providing service in Florida as of May 31, 2004.

PAETEC (TX234) filed its entire response (both Word and Excel files) to the 2004 CLEC data request as confidential (DN 07810, CD only). PAETEC also filed a revised copy of the Excel files as confidential (DN 08729, CD only). After speaking with PAETEC's representative, PAETEC decided to withdraw its confidential request ONLY for the Word response to the data request. Accordingly, in DN 08933, PAETEC filed a public version of its response to the Word part of the data request.

If you have any questions, please let me know. Thank you.
