Re: Oak Springs, LLC; PSC Docket No. 040515-WU
Original Certificate Application
Our File No. 38021.01

Dear Cheryl:

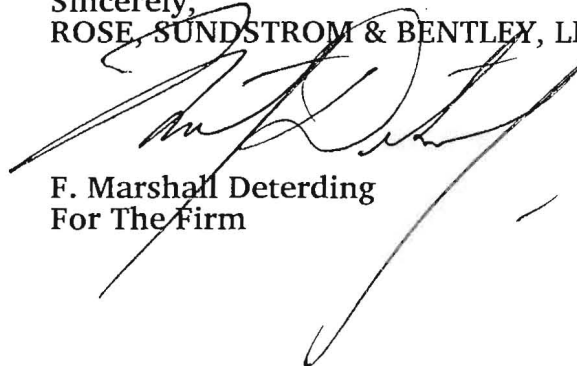

As a follow up to my letter addressed to Stan Rieger dated September 28, 2004, I am attaching hereto a schedule showing the estimate from the Utility's Consulting Engineer of the cost for each new meter installation. I am attaching two copies of tariff sheet no. 24.0 (revision to part of Exhibit "G" to the original application) to reflect this as the appropriate meter installation fee for a standard 5/8 X 3/4" meter.

With the submission of this information, I believe the only other thing that remains to be provided to the staff in response to the inquiries by you, Stan, and Patti is a double checking of the electric usage at the water plants. As I previously noted, we are confident that no other usage of the electricity at these plant sites exists, other than for water utility purposes. However, the Utility's Consulting Engineer is double checking into this issue to make sure. I should be able to get back to you in the next couple of days in this regard.

If you need anything further or have any further questions, please do not hesitate to contact me.
