RE: Request # 622956W

Customer has not been charged improperly. Sunshine Utilities charges \$15.00 flat rate per our tariff from the P.S.C.

As far as the low pressure complaint, Sunshine Utilities acquired the Ponderosa Pines water system from Community Water Co-Op when one of their two wells went bad. Part of the agreement between Sunshine Utilities and the Water Co-Op was to either hook-up to an existing Sunshine Utilities system that was a few miles away or drill a new well to rectify the low pressure problem.

The second well has been drilled and we are waiting on final D.E.P. approval before putting well on line.
