Re: Docket No. 041040-WU, Application of B & C Water Resources, L.L.C. to operate a water utility in Baker and Union Counties, Florida

Dear Ms. Bayo:

This responds to the Commission staff's letter dated October 13, 2004, which requested answers to the following questions:

	1.	While the application indicates there are currently no permanent, permitted, potable water wells within the proposed service territory, it appears the hunt camps have some form of water service. Please explain how water is currently provided to the 27 hunt camps.	
CMP			
COM		Currently, the water is either brought in by the hunters or supplied from temporary shallow wells in the area.	
CTR			
ECR	 2.	The immediate need for potable water service was based on letters from 3 of the 27 hunt camps indicating they would be interested in receiving potable water	
GCL		from B & C.	
OPC		a. Please indicate whether responses were received from any of the 24	
MMS		remaining hunt camps indicating that they did not want potable water	ليا سا
RCA		service from B & C.	-DAT
SCR		None of the hunt clubs have indicated that they did not want service from B & C

b. Regardless of their response to the offer of potable water, will all hunt camps be required to utilize B & C's wells once a water certificate is granted?

Yes. Once service is available the hunt camps will be required to cease using existing temporary shallow wells and use the wells owned by B & C Water Resources, L.L.C.

3. Please indicate the extent to which any of the 27 hunt camps are affiliated with the land owner, Plum Creek Timberlands, L.P.

None of the hunt clubs are affiliated with Plum Creek Timberlands, L.P. ("Plum Creek"); instead, they are contracted parties and lease property from Plum Creek.

4. The application indicates that there are no other utilities in the area that are capable of providing the required level of service. For informational purposes, please identify the name of the utility owning, and the distance to, the nearest water distribution main from the boundary of the proposed service territory.

BAKER COUNTY

<u>City of Glen St. Mary</u> – The City of Glen St. Mary is located approximately 5.4 miles from B & C Water Resources, L.L.C.'s proposed service territory. Currently, the City does not provide water and sewer service; instead, its residents are on private wells and septic systems.

<u>City of Macclenny</u> – The City of Macclenny is located approximately 6.3 miles from B & C Water Resources, L.L.C.'s proposed service territory. Although the City provides water service, its distance from the proposed service territory makes connecting to the City's system cost prohibitive.

UNION COUNTY

<u>City of Lake Butler</u> – The city limits of the City of Lake Butler are immediately adjacent to the B & C Water Resources, L.L.C.'s proposed service territory. Hartman Consulting has attempted to contact the City to determine the distance between the City's nearest service connection and the proposed service territory, but to date has not heard back from the City. Hartman Consulting estimates that the City's nearest point of interconnection is approximately 1000 feet from the boundary of the proposed service territory.

<u>City of Raiford</u> – The city limits of the City of Raiford are immediately adjacent to B & C Water Resources, L.L.C.'s proposed service territory. The City does not currently provide water and sewer service; instead, its residents are on private wells and septic systems. 5. The application did not include a request for an allowance for funds used during construction. Please advise staff whether the utility anticipates making such a request.

The utility does not intend to make such a request.

6. Please provide the following tariff modifications:

a. Utility Contact Information (Sheet No. 1.0) Provide a local address and telephone number for customers.

Attached to this letter is an updated tariff which includes the requested local customer contact information on Sheet No. 1.

b. Territory Description (Sheet Nos. 3.1 and 3.2) Please provide revised sheets based on the territory description modifications provided by staff.

See Sheets Nos. 3.1 and 3.2 of the updated tariff attached.

c. <u>Customer Bill</u> (Sheet No. 23.0). The tariff must contain a copy of the utility's proposed bill.

See Sheet No. 23 of the updated tariff attached.

Should the Commission or its staff have questions or need any additional information. please do not hesitate to contact us. Thank you for your consideration.

Sincerely,

HOLLAND & KNIGHT LLP
