OBJECTIVES – I am seeking a senior position in the communications and computer systems field, either in operations management, or consulting services. I am most interested in an opportunity where I can fully apply my strong business and technical skills and experience, in an advanced technology environment.

NOTABLE CAREER ACHIEVEMENTS

- Designed, implemented, and managed a carrier class voice over IP system for providing voice services to business and residential customers. The voice services provided both IP Centrex and IP Trunks to customer premises using T1 and SDSL services.
- Redesigned a carrier class voice network to provide for redundancy at the network/inter switch layer using DS3's and OC3/OC12 for connectivity between switches.
- Redesigned the call handling procedures for inter-switch call routing as well as egress routing to PSTN trunks. Designed and implemented the E-911 CAS trunks for routing of emergency calls and worked with a programming team to develop the Intrado E-911 interface for VOIP customers.
- Redesigned the SS7 infrastructure to eliminate a bottleneck and a single point of failure by installing a STP system that used IP for SS7 signaling and supported geographical redundancy.
- Designed and implemented a complete new data communications network, including all wiring, hardware and software, covering all business services and administration, for a metropolitan gov't.
- Designed, implemented, and serviced large-scale voice and data systems for major customers including: financial services, medical services, real estate, schools & universities, and manufacturers.
- Designed and implemented a citywide, 2.4 Ghz, IEEE 802.11b based wireless Internet service.
- Established a communications/computing sales & services company, providing a full range of products and technical services to over 2000 customers, in a geographic area covering southwest Georgia.
- Developed an Internet services provider company from scratch (ISP), growing it to over 2500 customers, providing customers with exceptional service options and uninterrupted Internet service.
- Retired Marine Corps non-commissioned officer, having completed a full 21 years of service.
- Received U.S. Navy Achievement Awards for my outstanding service accomplishments, including cost saving and safety programs.
- Designed and implemented, then managed, a completely new data communications network system for the largest Marine Logistics Base in the world.

WORK EXPERIENCE

- 2003 – Present **Swifttel Communications, Inc.**, Vidalia, GA **Chief Technical Officer**
Responsibilities and Duties – On a day-to-day basis, I manage all operations, including data center operations, telephone switch management, and customer communication services for the installation, maintenance, and troubleshooting of voice over IP telephone and network systems. The operations include management of multiple facilities connected via high speed carrier class systems with each facility having connections to the PSTN and interconnections with other carriers such as Bell South and Alltel. The operations also include management of a programming team for OSS development, an implementation team for VOIP installations, and a customer service/support team for troubleshooting problems and managing customer relations. My day-to-day duties require me to work with vendors and agencies outside of the organization such as Bell South for problem resolution and service provisioning, Telcordia for number porting and NPA/NXX updates, and US Carrier for network facilities management.
- 2002 – 2003 **Skyline Technologies, LLC.**, Albany, GA **Operations VP and Principle**
Responsibilities and Duties – On a day-to-day basis, I managed all operations, including data center operations, Internet help desk services, and customer communication services for the installation, maintenance, and troubleshooting of computer, telephone and network systems. The operations included management of contracted vendor services for data and telephone lines and pass-through services needed to support the Internet business. As a hands-on manager, I also developed customer proposals and designs, and did installations and maintenance on data, telephone and computer networks. I also managed vendor contracts, produced all operations reporting, and did sales and sales support.
- 1999 – 2002 **Slade Technologies, Inc.**, Albany, GA **President and CEO**

PRICE LIST FORMAT

- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, occasionally, when a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their Price List approval process, the most current sheet number on file with the Commission is not always the sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. **Check Sheets** - When a Price List filing is made with the Commission, an updated Check Sheet accompanies the Price List filing. The Check Sheet lists the sheets contained in the Price List with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The Price List user should refer to the latest Check Sheet to find if a particular sheet is the most current on file with the Commission.

SECTION 2 – RULES AND REGULATIONS**2.1. UNDERTAKING OF COMPANY**

- 2.1.1. Company's services are furnished for residential telecommunications service for local calling within the State of Florida. As a reseller, the quality of service provided to the companies end-users will be equal to that received from the company's underlying carrier(s).
- 2.1.2. Company is a facilities-based provider of telecommunications to Customers for their direct transmission and reception of voice or data residential communications.
- 2.1.3. Company provides access, switching, transport and termination services provided by other underlying telecommunications local carriers.
- 2.1.4. The Company's services are provided on a monthly basis unless otherwise provided, and are available twenty-four (24) hours per day, seven (7) days per week.
- 2.1.5. Request for service under this Price List will authorize the Company to conduct a credit search on the Customer. The Company will require a two month subscription payment from each new subscriber as an advanced payment to obtain service: one month's payment to pre-pay the first month's service charges and one month's payment for the Company to hold towards future unpaid billing. The Company reserves the right to refuse service on the basis of credit history, and to refuse further service due to late payment or nonpayment by the Customer.

2.2. LIMITATIONS

- 2.2.1. Service is offered subject to availability of the necessary facilities and/or service and subject to the provisions of this Price List.
- 2.2.2. The Company does not undertake to transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connections.
- 2.2.3. The Customer obtains no property right or interest in the use of any specific type of facility, service, equipment, telephone number, process or code. All rights, titles and interests remain, at all times, solely with the Company.

SECTION 2 – RULES AND REGULATIONS, Continued**2.2. LIMITATIONS, Continued**

- 2.2.4. Prior written permission from the Company is required before any assignment or transfer of service from one subscriber to another. All regulations and conditions contained in this Price List shall apply to all such permitted assignees or transferees, as well as all conditions of service. Transfers are not acceptable unless written permission from the Company is received by the transferring and the receiving transferee parties.
- 2.2.5. The Company may, upon reasonable notice, make such tests and inspections as may be necessary to determine whether the terms and conditions of this Price List are being complied with in the installation, operation or maintenance of the Customer's or the Company's facilities or equipment.
- 2.2.6. The Company reserves the right to refuse an application for service by a present or former Customer who is indebted to the Company for service previously rendered pursuant to this Price List until this indebtedness and any accrued interest or penalty amounts have been satisfied.

2.3. USE

- 2.3.1. Service may be used for the transmission of communications by the Customer for any lawful purpose for which it is technically suited.
- 2.3.2. Service may not be used for any unlawful purpose or for any purpose for which any payment or other compensation is received by the Customer, except when the Customer is a duly authorized and regulated common carrier. This provision does not prohibit an arrangement between the Customer, authorized user or joint user to share the cost of service.
- 2.3.3. The name(s) of the Customer(s) desiring to use the service must be set forth in the application for service.

SECTION 2 – RULES AND REGULATIONS, Continued**2.3. USE, Continued**

- 2.3.4. The Company strictly prohibits use of the Company's services without payment or an avoidance of payment by the Customer by fraudulent means or devices including providing falsified calling card numbers or invalid calling card numbers to the Company, providing falsified or invalid credit card numbers to the Company or in any way misrepresenting the identity of the Customer.
- 2.3.5. Recording of telephone conversations of service provided by the Company under this Price List is prohibited except as authorized by applicable federal, state and local laws.
- 2.3.6. Service will not be used to call another person so frequently or at such times of day or in any other manner so as to annoy, abuse, threaten or harass the called party.
- 2.3.7. Service will not be used in any manner which interferes with other persons in the use of their service, prevents other persons from using their service or otherwise impairs the quality of service to other Customers.
- 2.3.8. The Company reserves the right to refuse an application for service made by a present or former Customer who is indebted to the Company for service previously rendered pursuant to this Price List until the indebtedness is satisfied.

2.4. LIABILITIES OF THE COMPANY

- 2.4.1. The liabilities of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission occurring in the course of furnishing service or other facilities and not caused by the negligence of the Customer, commences upon activation of service and in no event exceeds an amount equivalent to the proportionate charge to the Customer for the period of service during which such mistakes, omissions, interruptions, delays, errors, or defects in transmission occur. For the purpose of computing such amount a month is considered to have thirty (30) days. In no event will the Company be responsible for consequential damages for any losses suffered by a Customer or end user as the result of interrupted or unsatisfactory service.

SECTION 2 – RULES AND REGULATIONS, Continued

2.4. LIABILITIES OF THE COMPANY, Continued

- 2.4.5. No agents or employees of connecting, concurring or other participating carriers or companies shall be deemed agents or employees of the Company without written authorization.
- 2.4.6. The Company is not liable for any failure of performance hereunder due to causes beyond its control, including, but not limited to, unavoidable interruption in the working of its circuits or those of another common carrier; acts of nature: storms, fire, flood, or other catastrophes; any law, order, regulation, direction, action, or request of the United States Government, or any other governmental entity having jurisdiction over the company or of any department, agency, commission, bureau, corporation, or other instrumentality or any one or more of such instrumentality or any one of more of such governmental entities, or of any civil or military authority; national emergencies, insurrections, riots, rebellions, wars, strikes, lockouts, work stoppages or other labor difficulties; or notwithstanding anything in this Price List to the contrary, the unlawful acts of the Company's agents and employees, if committed beyond the scope of their employment.
- 2.4.7. The Company shall not be liable for damages or adjustments, refunds or cancellation of charges unless the Customer has notified the Company, in writing, of any dispute concerning charges, or the basis of any claim for damages, within 20 days of when invoice is rendered by the company for the call giving rise to such dispute or claim, unless ordered by the Commission pursuant to Florida law. Any such notice must set forth sufficient facts to provide the Company with a reasonable basis upon which to evaluate the Customer's claim or demands.
- 2.4.8. The Company shall not be liable for any damages, including usage charges, that the Customer may incur as a result of the unauthorized use of its communications equipment. The unauthorized use of the Customer's communications equipment includes, but is not limited to, the placement of calls from the Customer's premises and the placement of calls through Customer-controlled or Customer-provisioned equipment that are transmitted or carried over the Company's network services without the authorization of the Customer. The Customer shall be fully liable for all such charges.

SECTION 2 – RULES AND REGULATIONS, Continued

2.4. LIABILITIES OF THE COMPANY, Continued

2.4.9. The Company shall not be liable for the Customer's failure to fulfill its obligations to take all necessary steps, including obtaining, installing and maintaining all necessary equipment, materials and supplies for interconnecting the terminal equipment or communications system of the Customer, or any third party acting as the Customer's agent, to the Company's underlying carriers' networks.

2.4.10. With respect to Emergency Number 911 Service:

A. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies. The Company is not responsible for any losses, claims, demands, suits or any liability whatsoever, whether suffered, made, instituted or asserted by the Customer, or by any other party or person, for any personal injury to, or death of, any person or persons, and for any loss, damage or destruction of any property, whether owned by the Customer or others, caused or claimed to have been caused by: (1) mistakes, omissions, interruptions, delays, errors or other defects in the provision of this service; or (2) installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of any equipment and facilities furnishing this service.

B. Neither is the Company responsible for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of Emergency 911 Service features and the equipment associated therewith, or by any services furnished by the Company, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing Emergency 911 Service, and which arises out of the negligence or other wrongful act of the Company, the Customer, its users, agencies or municipalities, or the employees or agents of any one of them. 911 service will remain active during temporary disconnections for residential customers.

SECTION 2 – RULES AND REGULATIONS, Continued**2.4. LIABILITIES OF THE COMPANY, Continued**

- 2.4.11. In the absence of gross negligence or willful misconduct, no liability for damages arising from errors, mistakes in or omissions of directory listings, or errors, mistakes or omissions of listings obtainable from the directory assistance operator, including errors in the reporting thereof, will attach to the Company.
- 2.4.12. The Company's liability arising from errors or omissions in directory listings will be limited to \$1.00.
- 2.4.13. As part of providing any private listing or semi-private listing services, the Company will not be liable for failure or refusal to complete any call to such telephone when the call is not placed by dialing a number which includes the number of the party called. The Company will try to prevent the disclosure of unpublished listings, but will not be liable in any manner should such a number be divulged.
- 2.4.14. When a Customer with a non-published telephone number places a call to the Emergency 911 Service, the Company will release the name and address of the calling party, where such information can be determined, to the appropriate local governmental authority responsible for the Emergency 911 Service, upon request of such governmental authority. By subscribing to service under this Price List, the Customer agrees to the release of such information under the above provision.
- 2.4.15. The Company will use reasonable efforts to make available services to a Customer on or before a particular date, subject to the provisions of, and compliance by the Customer with, the regulations contained in this Price List. The Company does not guarantee availability by any such date and will not be liable for any delays in commencing service to any Customer. The minimum time frame for Customer installation will be three days from the time of order. SECTION 2 – RULES AND REGULATIONS, Continued**2.5. EQUIPMENT AND FACILITIES**

2.5.1. The Company will not be responsible for the installation, operation or maintenance of any Customer-provided communications equipment. Where Customer-provisioned equipment is connected to the facilities furnished under this Price List, the responsibility of the Company will be limited to the furnishing of facilities offered pursuant to this Price List. Beyond this responsibility, the Company will not be responsible for:

- A. the transmission of signals by Customer-provided equipment or for the quality of, or defects in, such transmission; or
- B. the reception of signals by Customer-provided equipment; or
- C. network control signaling when performed by Customer-provided network control signaling equipment.

2.5.2. At the request of the Customer, installation or maintenance may be performed outside of the Company's regular business hours or in hazardous locations. In such cases, charges based on cost of the actual labor, material or other costs incurred by or charged by the Company will apply. If installation or maintenance is started during regular business hours, but, at the Customer's request, extends beyond regular business hours into time periods including, but not limited to, weekends, holidays and/or night hours, additional charges may apply.

2.5.3. As a reseller, the quality of service provided shall be equal to that received by the company's underlying carrier.

2.6. CUSTOMER RESPONSIBILITIES

SECTION 3 - SERVICE DESCRIPTION**3.1. LOCAL EXCHANGE SERVICE**

3.1.1 General

- A. Local Exchange Service provides a customer a single, analog, voice grade telephonic communications channel which can be used to place or receive one call at a time to and from, respectively, other stations on the public switched telephone network. Local exchange service also provides a customer with a unique telephone number address on the public switched telephone network and access to certain interstate and international services offered by Company. (a 'basic access line').
- B. A basic access line includes free access to Operator Services, Directory Assistance services, Telecommunications Relay Services and emergency services by dialing 0 or 911, with unlimited local calling at a flat rate.
- C. Local exchange service requires the classification by the customer of the basic access line as either of a business or residence basic access line. Residence access lines may include an allowance for calls for which there are no usage charges. One listing in the alphabetical directory is included for both residential and business access lines.

3.1.2. Service Description

- A. Local Exchange Service will be offered throughout the State of Florida and will consist of, minimally a residential or business basic access line. Optional Services features will be available for order by the Customer, consisting of all or any of the following: Caller ID, Call Waiting, Call Forwarding and or Voice mail. 911 Service will be available at all times including disconnection of service.

Section 3.2 CUSTOM CALLING FEATURES

3.2.1 General

The Custom Calling features in this section are made available on an individual basis or as part of multiple feature packages. All features are provided subject to availability; features may not be available with all classes of service.

3.2.2 Description of Features

A. Three Way Conference

The Three Way Calling feature allows a customer to add a third party to an existing two-way call and form a three-way call. The call must have been originated from outside the station group and terminate to a station within the station group. The Call Hold feature allows a customer to put any in-progress call on hold by flashing the switchhook and dialing a code. This frees the line to allow the customer to make an outgoing call to another number. Only one call per line can be on hold at a time. The third party cannot be added to the original call.

B. Call Forwarding

Call Forwarding, when activated, redirects attempted terminating calls to another customer-specific line. The customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding.

The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the customer with the Call Forwarding is billed for the forwarded leg of the call.

3.2.3. Description of Features, Continued

C. Call Waiting/Cancel Call Waiting

Call Waiting provides a tone signal to indicate to a customer already engaged in a telephone call that a second caller is attempting to dial in. It will also permit the customer to place the first call on hold, answer the second call and then alternate between both callers. Cancel Call Waiting (CCW) allows a Call Waiting (CW) customer to disable CW for the duration of an outgoing telephone call. CCW is activated (i.e., CW is disabled) by dialing a special code prior to placing a call, and is automatically deactivated when the customer disconnects from the call.

D. Distinctive Ringing

This feature enables a user to determine the source of an incoming call from a distinctive ring. The user is provided with up to two additional telephone numbers.

E. Multiline Hunting

This feature is a line hunting arrangement that provides sequential search of available numbers within a multiline group. Circular and uniform hunting can also be selected.

Hunt group charges apply to sequential, circular and uniform hunting and queuing with announcement per queue slot.

F. Speed Calling

This feature allows a user to dial selected numbers using one or two digits. Up to eight numbers (single digit, or thirty numbers with two digits) can be selected.

SECTION 3 – SERVICE DESCRIPTION, Continued**3.2 DIRECTORY ASSISTANCE**

A Directory Assistance Charge applies for each telephone number, and area code, and/or general information requested from Directory Assistance operator. There is no charge for the first three calls per month to Directory Assistance. The Customer can request a maximum of two numbers per call to Directory Assistance. Charges set forth in Section 4.2 will apply for each additional request made to the Directory Assistance Operator.

Directory Assistance Local Call Completion

Directory Assistance Call Completion allows the Customer the option to have their local calls completed to a requested number by either the Directory Assistance operator or the Directory Assistance audio response system that provide the requested number. All completed calls will be charged the Directory Assistance Call Completion Charge, in addition to any other appropriate charges. See Section 4.2 for Rates.

3.3 DIRECTORY LISTINGS

One Listing, termed the initial listing, is included with each Customer's service. Additional listings are confined to the names of those who are entitled to the use of the Customer's service. Telephone numbers of non-published service are not listed in the Telephone Company's directories or on directory assisted records. Listing information (name, address and number) on non-published service is not available to the general public, notwithstanding any claim of emergency the calling party may present. Telephone numbers of non-directory listed service are omitted or deleted from the Company's alphabetical directory, however, they are carried in the Company's directory assistance and other records and are given to any calling party.

Operator Services provide for live or automated operator treatment of calls when a customer dials "0". Services include, but are not limited to Busy Line Verification, Operator Verification \ Interrupt Service and Operator Assisted Call Completion Services. Access to Operator Services is provided at no charge, however, a per-call service charge and a per minute usage rate will apply when the customer elects to utilize a chargeable Operator Service.

3.4.1 Busy Line Verification

Utilizing operator assistance, the caller is able to accomplish any of the following:

- A. verify that a called line is in use
- B. verify that a called line is in use, or if it is clear, have the operator place the call
- C. verify and interrupt a call that is in progress

3.4.2 Operator Verification \ Interrupt Service

SECTION 3 - SERVICE DESCRIPTION, Continued**3.8 LOCAL EXCHANGE - DATA SERVICES****3.8.1 Frame Relay Service (FRS)****A. Description**

Frame Relay Service (FRS) is a provisional service which provides a high speed statistically multiplexed data service that allows for the transfer of variable length frames across a wide geographical area. Frames travel at high speed from the source to the desired destination via virtual connections (switched or permanent virtual connections). **Frame Relay allows end users to share network resources.** Each individual access link and Frame Relay port can be shared by traffic to multiple destinations.

This service, comprised of three components: local loop access, FRS port and the Data Link Connection Identifiers (DLCIs). The local loop access to the FRS network is through a dedicated, non-multiplexed digital line at 56 Kbps (DS0), 1.544 Mbps (DS1), or 44.736 Mbps (DS3). The FRS Port allow access to the FRS network. The DLCIs identify the address information and route the framed data. The DS0, DS1 and DS3 access services is offered in conjunction with Incumbent Local Exchange Carrier pursuant to and at the rates set forth in their relevant tariffs.

The Data Link Connection Identifiers are established at the time of service subscription at customer specified end points making a Permanent Virtual Connection (PVC). The FRS network will only transmit data between authorized DLCIs. Each PVC has a pre-assigned Committed Information Rate (CIR) and a Burst Rate (BR). This provides bandwidth sharing and bandwidth on demand capabilities.

The Company may also provide to subscribers a traffic data report upon request by the Customer.

B. Definitions

Access Link

A dedicated non-multiplexed digital access line at 56 Kbps, 1.544 Mbps, or 44.736 Mbps. This link can only be used for accessing Frame Relay Service.

Burst Rate

The upper bandwidth limit the permanent virtual connection is allowed to send data through the FRS network. The burst rate is limited by the actual physical port access speed.

Committed Information Rate

The CIR represents the base-level bandwidth the permanent virtual connection is allowed to send data through the network. This rate will be lower than the speed of the physical access line.

Data Link Connection Identifier (DLCI)

The address information assigned to customer designated end points used to identify PVCs and route frames of data. The frame relay virtual circuit number corresponding to a particular destination which is part of the frame relay header and is usually ten bits long.

Frame

A group of data bits, in a specific format, with a flag at either end to indicate the beginning and end of the frame. The defined format enables network equipment to recognize the meaning and purpose of specific bits.

B. Definitions, Continued

Permanent Virtual Connection (PVC)

A virtual circuit set up administratively, by a network operator, for a dedicated point-to-point connection between two customer designated end points.

Port

The physical entry point for the local loop access to the FRS network.

Switched Megabit (or Multi Megabit) Data Services (SMDS Access)

A way for a corporate network to dial up switched data services as fast as 45 Megabits per second.

Traffic Detail

A monthly report of data traffic information that provides the customer with details on frame and byte counts, dropped and congested frames.

Virtual Connection (circuit)

A connection established through a frame relay or packet network. Frames or packets are routed through the connection as an order-preserving transfer of data. This connection functions like a dedicated circuit between the end points.

SECTION 3 - SERVICE DESCRIPTION, Continued**3.8 LOCAL EXCHANGE - DATA SERVICES, Continued****3.8.2 Integrated Services Digital Network (ISDN) Primary Rate Interface (PRI)****A. Description**

Integrated Services Digital Network (ISDN) is a set of transmission protocols that provides end-to-end digital connectivity and integration of voice, data and video, on a single Subscriber loop to support a wide variety of services via the public switched telephone network. The Primary Rate Interface (PRI) consists of a 23B+D configuration with 23* 64Kbps Bearer (B) digital channels and one 64 Kbps Data (D) digital channel. The B channels are designed for voice, data, image and sound transmissions. B channels can support synchronous, asynchronous or isochronous services at rates up to 64 Kbps. B channels can be aggregated for higher bandwidth applications. The D channel PRI provides the out of band signaling, call control and messaging.

PRI is provided through standard four wire DS-1 (1.544Mbps) point to point, private line facilities that enables Subscriber control of the 24 individual channels.

B. Regulations

1. ISDN-BRI will only be provided where central office facilities and operating conditions permit.
2. ISDN-BRI is furnished to customers at the rates and charges as shown in Section 4, which are in addition to other rates and charges for the Local Exchange Service.
3. Rates and Charges for other optional features are in addition to those for ISDN-BRI service and are provided only where facilities and operating conditions permit.

3.8.3 ADSL

A. Service Description

Asymmetrical Digital Subscriber Line (ADSL) Service is an access data technology service which provides high speed connections services over existing copper facilities. ADSL service is offered in speed levels of 384 Kbps Down/128 Kbps Up to 6 Mbps Down/384 Kbps Up. The “up” speeds represent “transmission speeds in kilobytes from the customer designated location (CDL) to the Company’s ADSL connection point, while the “down” speeds represent “transmission speeds in kilobytes and megabits,” from the Company’s ADSL connection point to the CDL. The connection point is the aggregation point designated by the Telephone Company for connecting multiple Telephone Company ADSL serving wire centers via the backbone network services to the CDL.

ADSL Service is provisioned over existing Company copper facilities and transported to the Company’s backbone network. ADSL Service provides a connection from the customer designated location (CDL) to the ADSL connection point. Access from the Company’s ADSL connection point will be provided via Frame Relay Service, where facilities permit. Frame Relay Service is available in Section 3.8.1. A customer may utilize their existing Frame Relay Service or may submit any order to establish new facilities. The associated rates and charges for Frame Relay Service will apply in addition to the rates and charges associated with the ADSL Service rate elements.

The Company will qualify the ADSL Service between the CDL and the serving wire center. The purpose of qualification is to determine the availability and suitability of existing Company copper facilities to provide the service. The Company will not provision this service on facilities which are not suitable for ADSL.

3.8 LOCAL EXCHANGE - DATA SERVICES, Continued

3.8.3 ADSL, Continued

A. Service Description, Continued

The Company does not undertake to originate data, but offers the use of its service components, where available, to customers for the purpose of transporting customer-originated data.

ADSL will be provided subject to the availability and limitations of Company wire centers and outside plant facilities and is only available where technical capabilities permit such facility distance and type of physical plant.

B. Responsibility of the Company

The Company will provision and maintain ADSL service for the customer up to and including the Network Interface Device (NID).

C. Rights of the Company

The Company will not provision ADSL service if the Company reasonably determines that (a) it is not technically feasible over existing facilities or (b) it will cause interference problems with existing services.

During the Company's network maintenance and software updates period, it may be necessary to place the ADSL wire center out of service. The Company reserves the right to temporarily interrupt ADSL Service at other times in emergency situations.

D. Responsibility of the Customer

The customer is responsible for providing compatible customer provided equipment (CPE) that is used for connection to ADSL Service.

The customer is responsible for providing the Company with the necessary information (e.g., Data Link Connection Identifier(s) (DLCI), Permanent Virtual Circuit (PVC) and/or Internet Protocol) to provision ADSL Service.

The customer ordering ADSL Service on behalf of its subscribers must obtain a letter of agency.

The customer will be responsible for obtaining permission from its subscriber(s) for the Company's agents or employees to enter the customer's designated location(s) at any reasonable hour for the purpose of installing, inspecting, repairing, or upon termination of the service, removing the service components of the Company.

E. Rate Regulations

1. Rate Elements

A nonrecurring charge and a monthly rate apply for the installation of ADSL Service. The nonrecurring charge is also applicable when changing bandwidth.

ADSL Service is available in two service level packages, and is based on the “downstream and upstream” speeds chosen by the customer. The service levels are as follows: The Platinum Plus is available for multi-user applications. A customer may have multiple packages.

<u>Downstream</u>	<u>Upstream</u>
Up to 1.5 Mbps, guaranteed at 384 Kbps	128 Kbps
Up to 6 Mbps, guaranteed at 1.5 Mbps	384 Kbps

Data speeds set forth above are peak periods. Actual speeds may be affected by loop distance and other factors, therefore, data speeds are not guaranteed.
