**RATE SCHEDULE FLAT-1
RESIDENTIAL/COMMERCIAL FlatBill®**

PAGE	EFFECTIVE DATE
1 of 3	

AVAILABILITY:

Available throughout the entire territory served by the Company.

APPLICABILITY:

Gulf Power customers in good credit standing, who have valid billing information for service pursuant to either Rate Schedule RS or Rate Schedule GS at their current premise for the twelve-month period immediately preceding the offer, excluding temporary service, are eligible to request the FLAT-1 rate.

All service shall be taken at the same voltage, from a single delivery point, and shall be measured by a single meter.

CHARACTER OF SERVICE:

The delivery voltage to the Customer shall be the voltage of the available distribution lines of the Company for the locality in which service is to be rendered.

BILL FORMULA:

Annual Bill = {[Estimated Annual kWh (Energy-Demand cents/kWh + Estimated Fuel cents/kWh + Estimated ECCR cents/kWh + Estimated ECR cents/kWh + Estimated PPCC cents/kWh)] X Risk Adder} + Annual Customer Charge

Each Customer's annual bill is specific, or unique, to that customer.

Monthly Bill = Annual Bill / 12

Gulf Power periodically reviews the routes by which customers' meters are read to ensure they are in line with traffic patterns and efficiency goals. If a customer's neighborhood is reviewed, the date on which the customer's meter is read may change. Should this happen, the customer may see an adjustment in the *FlatBill*® amount for the next billing period. This adjustment only reflects a change in the number of days in this billing period and the customer will continue to receive the customer's regular *FlatBill*® amount after this adjusted billing.

(Continued from Rate Schedule FLAT-1, Sheet No. 6.39)

DEFINITIONS

Estimated Annual kWh – Customer's expected annual energy consumption is calculated based on the customer's historical metered usage adjusted for normal weather and consumption changes in customer behavior.

Risk Adder – The adder is used to compensate the Company for the risk associated with weather-related consumption as well as the risk associated with the non-weather impacts. This adder will not exceed 5%.

Annual Customer Charge – The monthly customer charge under Rate Schedule RS or Rate Schedule GS, as applicable, multiplied by 12.

Energy-Demand cents/kWh – The base rate charge under Rate Schedule RS or Rate Schedule GS, as applicable.

Normal Weather – Based on Gulf's seasonal heating degree-days and cooling degree-days.

TERM OF CONTRACT:

Service under this schedule shall be for a period of not less than one year.

All eligible *FlatBill*[®] offers will be updated with their previous year consumption, and contracts will automatically renew for the following year, unless the customer notifies the company otherwise.

A customer who withdraws from the program prior to the end of the 12 month contract period will be required to pay any difference between their actual usage billed on Rate Schedule RS or Rate Schedule GS, as applicable, and the amount collected under *FlatBill*[®].

Gulf Power shall have the discretion to waive any of the foregoing charges that would otherwise apply as a consequence of significant damage to a *FlatBill*[®] customer's premise caused by a natural disaster or other similar conditions for which an emergency has been declared by a governmental body authorized to make such a declaration.

DEPOSIT:

A deposit amounting to twice the estimated average monthly bill may be required before service is connected at designated premises. The deposit may be applied to any final bills against the Customer for service.
