ORDER GRANTING REQUEST FOR CONFIDENTIAL CLASSIFICATION  
(DOCUMENT NO. 11559-04)

On November 12, 2004, pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Progress Energy Florida, Inc. (PEF) filed a request for confidential classification of portions of its response to Interrogatory No. 12, Attachment A to Interrogatory No. 9, and Attachment C to Interrogatory No. 11, from Staff's Third Set of Interrogatories (Document No. 11559-04).

Section 366.093(1), Florida Statutes, provides that "any records received by the commission which are shown and found by the commission to be proprietary confidential business information shall be kept confidential and shall be exempt from [the Public Records Act]." Section 366.093(3), Florida Statutes, defines proprietary confidential business information as information that is intended to be and is treated by the company as private, in that disclosure of the information would cause harm to the company's ratepayers or business operations, and has not been voluntarily disclosed to the public. Section 366.093(3), Florida Statutes, provides that proprietary confidential business information includes, but is not limited to "[t]rade secrets" (subsection a); "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms" (subsection d); and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information" (subsection e).

PEF contends that portions of its response to Interrogatory No. 12, Attachment A to Interrogatory No. 9, and Attachment C to Interrogatory No. 11, fall within these categories and thus constitutes proprietary confidential business information entitled to protection under Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code. PEF states that this information is intended to be and is treated by PEF as private and has not been publicly disclosed.

PEF requests confidential classification for detailed, supplier-by-supplier information regarding the minimum and maximum quantities of natural gas contained in Attachment A to its response to Interrogatory No. 9, residual oil contained in Attachment C in its response to Interrogatory No. 11, and distillate oil contained in its response to Interrogatory No. 12, that PEF has contracted to receive in 2004 and 2005. According to PEF, disclosure of this information would allow existing and potential suppliers of these fuels to know the utility's current requirements for each fuel, by supply contract component and in total, and the exact time when each supply contract will expire. PEF asserts that this knowledge would give existing and

FPSC-COMMISSION CLERK

potential suppliers a significant competitive advantage in upcoming bidding and negotiations for PEF's future supply requirements for each type of fuel. PEF argues that suppliers would be able to tailor their bids and negotiations from a position of greater bargaining strength if they are forearmed with the knowledge of PEF's specific needs and the ability to assess the utility's risk exposure and supply vulnerabilities. PEF states that its ability to contract for goods and services on favorable terms would be impaired, which would result in higher fuel costs to the detriment of the utility and its customers.

Upon review, I find that the above-referenced information contained in PEF's response to Interrogatory No. 12, Attachment A to Interrogatory No. 9, and Attachment C to Interrogatory No. 11, of Staff's Third Set of Interrogatories satisfies the criteria set forth in Section 366.093(3), Florida Statutes, for classification as proprietary confidential business information and, thus, shall be treated as confidential. The information constitutes "[i]nformation concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms;" and "[i]nformation relating to competitive interests, the disclosure of which would impair the competitive business of the provider of the information." Thus, this information is granted confidential classification.

Pursuant to Section 366.093(4), Florida Statutes, the information for which confidential classification is granted herein shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. At the conclusion of the 18 month period, the confidential information will no longer be exempt from Section 119.07(1), Florida Statutes, unless PEF or another affected person shows, and the Commission finds, that the records continue to contain proprietary confidential business information.

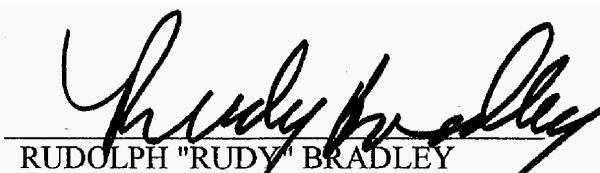

Based on the foregoing, it is

ORDERED by Commissioner Rudolph "Rudy" Bradley, as Prehearing Officer, that Progress Energy Florida, Inc.'s Request for Confidential Classification of Document No. 11559-04 is granted. It is further

ORDERED that the information in Document No. 11559-04 for which confidential classification has been granted shall remain protected from disclosure for a period of 18 months from the date of issuance of this order. It is further

ORDERED that this Order shall be the only notification by the Commission to the parties of the date of declassification of the materials discussed herein.

By ORDER of Commissioner Rudolph "Rudy" Bradley, as Prehearing Officer, this 15<sup>th</sup> day of December, 2004.

RUDOLPH "RUDY" BRADLEY  
Commissioner and Prehearing Officer

(SEAL)

JAR

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Mediation may be available on a case-by-case basis. If mediation is conducted, it does not affect a substantially interested person's right to a hearing.

Any party adversely affected by this order, which is preliminary, procedural or intermediate in nature, may request: (1) reconsideration within 10 days pursuant to Rule 25-22.0376, Florida Administrative Code; or (2) judicial review by the Florida Supreme Court, in the case of an electric, gas or telephone utility, or the First District Court of Appeal, in the case of a water or wastewater utility. A motion for reconsideration shall be filed with the Director, Division of the Commission Clerk and Administrative Services, in the form prescribed by Rule 25-22.060, Florida Administrative Code. Judicial review of a preliminary, procedural or intermediate ruling or order is available if review of the final action will not provide an adequate remedy. Such review may be requested from the appropriate court, as described above, pursuant to Rule 9.100, Florida Rules of Appellate Procedure.
