A more specific description of this information is provided in Attachment A. These items should be classified as proprietary, confidential business information pursuant to Section 364.183(3)(e), Florida Statutes and is exempt from the Open Records Act.
3. On January 6 and January 10, 2005, BellSouth filed its Request for Confidential Classification and Replacement Request to describe exactly what portions were proprietary.

REQUEST FOR CONFIDENTIAL CLASSIFICATION OF BELLSOUTH'S RESPONSE TO XO'S FIRST SET OF INTERROGATORIES, ITEM NO. 5 AND FIRST REQUEST FOR PRODUCTION, NOs. 1 AND 7, FILED DECEMBER 15, 2004, IN FLORIDA DOCKET NO. 041114-TP

Explanation of Proprietary Information

1. This information contains competitive, business information. This information is valuable, it is used by BellSouth in conducting its business and BellSouth strives to keep it secret. Therefore, such information is a trade secret which should be classified as proprietary, confidential business information pursuant to Section 364.183(3)(e), Florida Statutes and is exempt from the Open Records Act.
2. This information contains business information related to competitive interests of BellSouth that is proprietary to BellSouth. The documents contain actual unit cost information for discrete cost elements. Public disclosure of this information would provide BellSouth's competitors with an advantage in that they would know the price or rate below which BellSouth could not provide the service. The data is valuable to competitors and potential competitors in formulating strategic plans for entry, pricing, marketing, and overall business strategies concerning these services. This same information on competitors is not available to BellSouth. Disclosure of this data would impair the competitive business and cause harm to BellSouth. Consequently, this information should be classified as proprietary, confidential business information pursuant to Section 364.183, Florida Statutes and is exempt from the Open Records Act.
3. This material is proprietary and confidential business information of a technical nature used by BellSouth in conducting its business and not commonly known by or available to the public. BellSouth derives economic value from this information not being generally known to, and not being readily ascertainable by competitors who can obtain economic value from its disclosure. Specifically, BellSouth's internal procedures for *Implementation of Single Network Element-Switch As-Is (SNE-SAI)*; *Single Network Element SPA to UNE (SNESAI) Conversion Marketing Service Description* provide description, service restrictions, appropriate forms, service order issuance requirements, installation intervals, repair procedures, etc. that are proprietary and confidential to BellSouth as it describes BellSouth's internal operations. Additionally, the information contains forecasted demand data and BellSouth's strategic schedule of deployment which competitors could use to gain an economic advantage.

Furthermore, this information has been prepared at great cost to BellSouth and therefore, others should not be permitted to gain the noncompetitive benefit from not having to develop these instructions and materials themselves. And, job aids have historically been protected by the Florida Public Service Commission. Therefore, this information is entitled to confidential classification pursuant to Section 364.183(3)(e) of the Florida Statute.

**REQUEST FOR CONFIDENTIAL CLASSIFICATION OF BELLSOUTH'S RESPONSE

DOCKET NO. 041114-TP**

Explanation of Proprietary Information

1. This information contains competitive, business information. This information is valuable, it is used by BellSouth in conducting its business and BellSouth strives to keep it secret. Therefore, such information is a trade secret which should be classified as proprietary, confidential business information pursuant to Section 364.183(3)(e), Florida Statutes and is exempt from the Open Records Act.
2. This information contains business information related to competitive interests of BellSouth that is proprietary to BellSouth. The documents contain actual unit cost information for discrete cost elements. Public disclosure of this information would provide BellSouth's competitors with an advantage in that they would know the price or rate below which BellSouth could not provide the service. The data is valuable to competitors and potential competitors in formulating strategic plans for entry, pricing, marketing, and overall business strategies concerning these services. This same information on competitors is not available to BellSouth. Disclosure of this data would impair the competitive business and cause harm to BellSouth. Consequently, this information should be classified as proprietary, confidential business information pursuant to Section 364.183, Florida Statutes and is exempt from the Open Records Act.
3. This material is proprietary and confidential business information of a technical nature used by BellSouth in conducting its business and not commonly known by or available to the public. BellSouth derives economic value from this information not being generally known to, and not being readily ascertainable by competitors who can obtain economic value from its disclosure. Specifically, BellSouth's internal procedures for *Implementation of Single Network Element-Switch As-Is (SNE-SAI); Single Network Element SPA to UNE (SNESAI) Conversion Marketing Service Description*. These documents provide description, service restrictions, appropriate forms, service order issuance requirements, installation intervals, repair procedures, etc. Additionally, the information contains forecasted demand data and BellSouth's strategic schedule of deployment which competitors could use to gain an economic advantage.

Furthermore, this information has been prepared at great cost to BellSouth and therefore, others should not be permitted to gain the noncompetitive benefit from not having to develop these instructions and materials themselves. Therefore, this information is entitled to confidential classification pursuant to Section 364.183(3)(e) of the Florida Statute.
