No, just go by the second memo. Destroy 05854, either destroy or return 04029 depending upon BST's preference.

I will get Lisa to confirm, but she and I took a closer look in the latter memo and the latter one includes our better informed request.

I realized 05854 is a document WE created and filed and therefore rightfully can be disposed of without being sent to BST. Also, upon realizing that Bell's filing in 04029 was made obsolete by their new filing in 04326, I realized they will probably authorize us to destroy since its value to them is gone.

Hello.

there were 2 memo's (DNs 00503-05 and 00906-05, see attached) filed with CCA concerning confidential DN's 04029-04 & 05854-04.

Lisa, your memo says to return both confidential DN's.

Carl, your memo says to either destroy or return DN 04029-04 and to destroy DN 05854-04.

Just for clarification sake, can ya'll get together and tell me the final decision of action to be taken for Confidential DN's 04029-04 and 05854-04.

thanks.
