RE: Docket No. 050028-WU

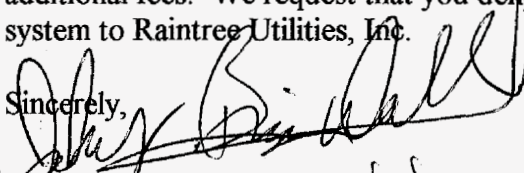

Director:

This letter is in opposition to the transfer of our water system in the Silver Oaks Subdivision, from the existing owner, RTG Properties, to Raintree Utilities, Inc.

When we purchased our property in the Silver Oaks Subdivision, prior to building our home, we were told that we would not incur monthly charges for water service. The realtor contracted by RTG to sell the land informed us that we would pay a one time hook-up fee for our water service. When we built our home in the summer and fall of 1989 we paid RTG Properties \$900.00 to hook up and start our water service. We had total confidence this was the only payment that would ever be needed.

As stated, we have already paid for our water service and should not be charged any additional fees. We request that you deny the application for the transfer of our water system to Raintree Utilities, Inc.
