Dear Mr. Bussmann:

This letter is in regard to the above mentioned systems plans to eliminate the New Port Richey interconnect.

In order to properly consider your plans, please provide the following information:

1. Provide a statement from each electrical power supplier detailing service to each facility.
2. Provide the current number of service connections and population of each system.
3. Provide a statement from each utility agreeing to share their interconnect and provide backup in case of emergency.
4. Provide a new auxiliary power plan detailing how emergencies would be handled and the current generator capabilities under full load.
5. Provide your plans for the Orangewood Lakes interconnect with Hacienda Village.

Please be aware that for this option to remain viable, the December tests at full load would need to be successful. Final approval will necessitate physically disconnecting from New Port Richey's system.

If you have any questions or concerns, please contact Bill Ryland at (813) 744-6100, extension 453.

Sincerely,

Jeffrey S. Greenwell, P.E.

Re: Chloramine Conversion
Orangewood Lakes Services PWS 651-2069
LWV Utilities PWS 651-1034

Dear Mr. Greenwell,

In response to your letter of November 6, 2003, we provide the following information:

1. Copies of letters from Withlacoochee Cooperative furnishing service information.
Copies of power bills for water plants at both facilities.
2. Currently, Orangewood Lake Services provides service to the following:

<u>Type</u>	<u># Connections</u>	<u>Occupancy</u>	<u>Population</u>
Mobile Homes	251	1.3	326
Apartments	75	2.0	150
Houses	166	2.5	415
		Total	891

Currently, LWV Utilities provides service to the following:

<u>Type</u>	<u># Connections</u>	<u>Occupancy</u>	<u>Population</u>
Houses	344	2.5	680

3. Attached are statements from both companies stating that they will share the interconnect and provide emergency backup.
4. The auxiliary power unit is mounted on a moveable trailer and is parked at the wastewater treatment plant. The unit could easily be moved to the water plant and would be capable of supplying sufficient power to operate the Orangewood Lakes Water Plant.
5. There is no intent to support an interconnect with Hacienda Village. Repeated attempts to contact the ownership of Hacienda Village have proved unfruitful. Both Orangewood Lakes and Lakewood Villas will not rely on the New Port Richey water supply system.

Cordially,

Ray G. Bussmann, P.E.
