-M-E-M-O-R-A-N-D-U-M- COMMISSION CLERK

DATE: April 5, 2005

TO: Katherine Fleming, Attorney, General Counsel

FROM: Division of Regulatory Compliance and Consumer Assistance (Freeman, Vandiver) *AVM*

RE: Docket 041291-EI, Recommendation concerning Florida Power & Light Company's (FPL) request for confidential classification concerning a portion of the staff working papers prepared during "Florida Power & Light Storm Cost Recovery Audit for the Year Ended December 31, 2004", Audit Control No. 04-343-4-1, Documents Numbered 01560-05, 01561-05, 01563-05 and 02236-05

On February 10, 2005, when copies of certain portions of staff's working papers obtained or prepared during the "Florida Power & Light Storm Cost Recovery Audit for the Year Ended December 31, 2004", were delivered to FPL at the audit exit conference, the utility requested that these materials be temporarily exempted from public access in accordance with the provisions of Rule 25-22.006(3)(a)2., Florida Administrative Code (FAC).

On February 15, 2004, staff filed documents 01560-05, 01561-05, and 01563-05 consisting of those specified portions of the staff's working papers.

On March 3, 2004, FPL filed a request pursuant to Rule 25-22.006, FAC, and Section 366.093, Florida Statutes (F.S), that selected portions of the working papers prepared by the staff during the audit receive confidential classification. The utility's request included redacted copies for public inspection (document 02237-05) and copies with the sensitive material highlighted (document 02236-05).

Documents 01560-05, 01561-05, 01563-05 and 02236-05 are currently held by the Commission's Division of the Commission Clerk and Administrative Services as confidential pending resolution of FPL's request for confidential classification.

FPSC-COMMISSION CLERK

Subsection 366.093, F.S., provides; “Proprietary confidential business information means information, regardless of form or characteristics, which is owned or controlled by the person or company, is intended to be and is treated by the person or company as private in that the disclosure of the information would cause harm to the ratepayers or the person’s or company’s business operations, and has not been disclosed unless disclosed pursuant to a statutory provision, an order of a court or administrative body, or private agreement that provides that the information will not be released to the public. Proprietary confidential business information includes but is not limited to:

....

(d) Information concerning bids or other contractual data, the disclosure of which would impair the efforts of the public utility or its affiliates to contract for goods or services on favorable terms.

(e) Information relating to competitive business interests, the disclosure of which would impair the competitive business of the provider of the information....”

According to Section 366.093, F.S., and Rule 25-22.006, FAC, the utility has the burden of demonstrating that materials qualify for confidential classification. According to Rule 25-22.006, FAC, the utility must meet this burden by demonstrating that the information is proprietary confidential business information, the disclosure of which will cause the utility, the provider of the information or the ratepayer harm.

Staff Analysis of the Request

Reading the FPL filing reveals the sensitive material consists of:

Contractual data such as pricing and other terms

FPL asserts that disclosure of sensitive contractual data such as prices and other terms would impair the efforts of FPL and its affiliates to contract on favorable terms. In addition, FPL asserts release of this pricing and other contractual data would impair the business interests of involved vendors when bidding on future FPL and non FPL contacts. Lastly, FPL asserts that disclosure of this information would also be to the detriment of FPL’s customers.

FPL argues this information qualifies for a confidential classification on the basis of Section 366.093(3)(d) F.S., which allows the Commission to grant a confidential classification to sensitive contractual information of a public utility or its affiliates. FPL further argues that pursuant to the provisions of Section 366.093(e), F.S., that the Commission should grant a confidential classification to contractual information on the basis that release of this information would harm the vendors when they compete for FPL and non FPL contacts in the future.

April 5, 2005
Florida Power & Light Request

FPL witness Christopher J. Trump, FPL Manager of Materials Management in the Integrated Supply Chain Department, identifies sensitive contractual and competitive information reported on working papers entitled: "Sample of Cash Voucher", "Testing of Vouchers over \$400,000", "Summary of Journal Vouchers", "Answer to Request 14A", "Purchase Order", "Request 14A", "On Demand Query Report", "Substation Work Order", "Substation Eq", and "FINS Construction Report."

FPL witness Paul J. Seiler, FPL Manager of Contract Labor in the Integrated Supply Chain Department, identifies sensitive contractual and competitive information reported upon a working paper entitled "Sample of Bartech."

FPL witness Robert H. Adams, FPL Director of Power Systems Cost and Performance, identifies sensitive contractual and competitive information reported upon working papers entitled "Testing of Cash vouchers Over \$400,000", "Estimated Storm Expenses", "December Accrual Information" and "List of Contractors."

FPL witness Pamela L. Sonnelitter, FPL General Manager of Business Services in the Power Generation Division, identifies sensitive contractual and competitive information reported upon working papers entitled "Purchase Order" and "On Demand Query Report."

FPL Witness Samuel R. Coleman, FPL General Manager of Power Generation Sourcing in the Integrated Supply Chain Department, identifies sensitive contractual and competitive information reported upon a working paper entitled "Reconciliation Form."

Staff Analysis

After reading the information identified by witnesses Trump, Seiler, Adams, Sonnelitter and Coleman, we recommend that this information be held as confidential because the information is sensitive contractual information release of which would harm the ability of FPL and its affiliates to contract favorably for goods and services in the future. We also agree with FPL that this contractual information is also sensitive competitive business information release of which would harm the businesses of the contracting parties. Lastly, we agree with FPL that release of this information would be to the detriment of the FPL ratepayer.

Information Held as Confidential

To qualify as proprietary confidential business information the material must also be held as private and not be released to the public. FPL asserts that this sensitive information has not been released to the public. FPL witnesses also assert FPL has maintained the confidentiality of those materials they have identified as sensitive.

Duration of the Confidential Classification Period

FPL requests that this material be returned to the utility once the information is no longer needed for the Commission to conduct its business.

According to the provisions of Section 366.093(4), F.S., absent good cause shown, confidential classification is limited to 18 months. Without cause shown for a longer period, we recommend that the period of confidential classification be set as 18 months. As deemed necessary, the utility may request an extension of the confidential classification before the period tolls.

Staff Recommendation

Based upon reading the filing, and for the reasons presented above, we recommend the utility's request be granted and that the identified material be granted a confidential classification for 18 months.

A detailed recommendation, as found, follows:

Detailed Recommendation, as Found

Staff Work Paper Number	Description	Page(s)	Line(s)	Recommend	Type of Information Classified Confidential
