RE: Closure of Docket 050236-EI

On March 15, 2005, Progress Energy filed a Notice of Intent to Request Confidential Classification (Document Number 02523-05) in response to an audit-related data request, thereby triggering the initiation of this docket. On April 5 and 6, the company made related subsequent filings.

Since staff's data request was issued in an undocketed audit, the confidentiality of these responses will be addressed at the conclusion of the audit, as outlined in APM 11.04C(10). The company should have indicated its notice of intent on the Audit Document/Record Request Form (PSC/RCA 006-1) and therefore these filings and this docket itself are not necessary at this time.

Therefore, I request that this docket be closed and all documents returned to the company. Depending upon the use staff eventually makes of these documents, it may be necessary to open a docket at a later date. Audit staff has already received from Progress copies of the documents it originally requested, so all of the documents filed in CCA can be returned. Thank you for your assistance.
