COMMISSION  
CLERK

**DATE:** April 18, 2005

**TO:** Jason P. Rojas, Attorney, Office of the General Counsel *JPR*

**FROM:** Catherine S. Beard, Regulatory Analyst I, Division of Competitive Markets & Enforcement *CSB*

**RE:** Docket No. 050247-TL - Petition for the Expedited Review of Growth Code Denials by the Number Pooling Administrator for the Jacksonville exchange (Clay Street-2) by BellSouth Telecommunications, Inc. *CSB*

On April 4, 2005, BellSouth Telecommunications submitted a numbering resource application to NeuStar for additional numbering resources at their Jacksonville exchange, the Clay Street (JCVLFLCLDS0) switch. Specifically, there is a customer requesting one (1) single 1,000 block of numbers to utilize Direct Inward Dialing (DID). Also on April 4, 2005, NeuStar denied BellSouth's request for additional numbers based on the criteria of the FCC's month-to-exhaust (MTE) formula.

On April 8, 2005, BellSouth filed a petition requesting that the Commission overturn NeuStar's decision to deny numbering resources in the Clay Street (JCVLFLCLDS0) switch. In accordance with Commission Order PSC-02-0352-PAA-TL (Docket No. 020087-TL), which approved an expedited process for the NeuStar code denials, we have examined the BellSouth petition, along with the confidential supplemental information, and have determined the following:

- 1) The carrier has demonstrated that it has a customer in need of numbering resources;
- 2) The carrier has shown that it is unable to provide services to a potential customer because of NeuStar's denial of numbering resources;
- 3) A customer will not be able to obtain the service from the provider of his/her choice because the carrier will not have the numbers available.

Since the three criteria of Order No. PSC-02-0352-PAA-TL have been met, please prepare an administrative Proposed Agency Action (PAA) Order to be issued within seven business days of this memorandum (April 27, 2005), as outlined in the expedited code denial process orders. NeuStar should be directed to provide BellSouth the needed numbering resources to meet its customer's needs in the Clay Street switch (JCVLFLCLDS0), specifically
