Re: Docket No. 040133-EU; Joint Petition of Progress Energy Florida
and Withlacoochee River Electric Cooperative for Approval of
Settlement and Implementation of First Phase.

Dear Ms. Bayó:

My April 29, 2005 filing letter noted that the County Highway maps, Exhibit B to the subject Joint Petition, would be submitted by supplemental filing. I have therefore enclosed for supplemental filing the complete Joint Petition, including Exhibit B, which contains General Highway Maps for Hernando and Pasco Counties depicting the modified territorial boundary lines associated with the First Phase of the parties' settlement agreement.

Please acknowledge your receipt of the above filing as provided in the Commission's electronic filing procedures. Thank you for your assistance in this matter.

Very truly yours,

s/ James A. McGee

BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Petition of Withlacoochee River Electric Cooperative to modify a territorial agreement or, in the alternative, to resolve a territorial dispute with Progress Energy Florida in Hernando County.

Docket No. 040133-EU

Submitted for filing:
April 29, 2005

**JOINT PETITION FOR APPROVAL OF SETTLEMENT
AND THE IMPLEMENTATION OF FIRST PHASE**

Withlacoochee River Electric Cooperative, Inc. ("WREC") and Progress Energy Florida, Inc. ("Progress Energy") (collectively, "the Joint Petitioners"), jointly petition the Florida Public Service Commission ("the Commission") for approval of a settlement reached by WREC and Progress Energy, attached hereto as Exhibit A, which resolves all outstanding issues pending before the Commission in this proceeding and substantially furthers their ongoing negotiations to amend and consolidate four existing territorial agreements delineating their respective service areas in Citrus, Hernando and Pasco Counties. In conjunction with the approval of their settlement, the Joint Petitioners also seek the Commission's approval to implement the first phase of the settlement consisting of modifications to their Territorial Boundary Line in four areas of Hernando and Pasco Counties, including the Majestic Oaks development which is the subject of the pending dispute in this proceeding, and the transfer of certain customers related to the Boundary Line modifications in the three other areas. In support hereof, the Joint Petitioners represent as follows:

Background

1. By Order No. PSC-04-0339-PCO-EU, issued , 2004, the Prehearing Officer granted the Joint Motion of WREC and Progress Energy to hold this proceeding in abeyance to allow the parties to pursue the opportunity for an amicable settlement of the disputed issues then pending before the Commission. After extended negotiations, WREC and Progress Energy have reached a settlement which fairly balances their respective interests and, if approved by the Commission, will resolve all outstanding in the pending docket.

2. The negotiations that culminated in the settlement took place against a backdrop of existing negotiations between WREC and Progress Energy to amend and consolidate four currently effective territorial agreements that delineate their service areas in Citrus, Hernando and Pasco Counties.¹ WREC and Progress Energy were able to achieve a settlement that maintains a fair balance of their respective interests by expanding the scope of the settlement beyond the Majestic Oaks dispute in the pending docket to include six additional areas in Hernando and Pasco Counties which were among the areas under discussion in the parties' broader negotiations to amend and consolidate their current territorial agreements. As a result, the settlement will substantially further the parties' efforts toward such an amended and consolidated territorial agreement.

¹ The Commission has been made aware of these negotiations by virtue of two previous Joint Petitions filed by WREC and Progress Energy to extend the expiration dates in three of the current territorial agreements to provide the parties additional time to negotiate an amended and consolidated agreement.

The Settlement

3. The settlement reached by WREC and Progress Energy, as set forth in the attached Exhibit A, includes the following key provisions:

- The parties' territorial boundary line will be modified to located the entire Majestic Oaks development in Hernando County within the service territory of WREC, including 452 lots currently located in Progress Energy's service territory. This will also satisfy the desire of the developer, Majestic Oaks Partners, LLC, to have the development receive electric service from a single supplier.
- The territorial boundary line will be modified to place a portion of the area known as Masaryktown located south of the County Line Road in northern Pasco County within the service territory of WREC. The area contains approximately 366 customers currently served by Progress Energy.
- The territorial boundary line will be modified to include the area in and around Trilby located in northern Pasco County and eastern Hernando County within the service territory of WREC. The area contains approximately 1,671 electric customers currently served by Progress Energy.
- The territorial boundary line will be modified to include the area known as the East Pasco Well Field located in southern Pasco County within the service territory of Progress Energy. The area contains approximately 706 customers currently served by WREC from its Pasco Well Field substation

site, which Progress Energy will acquire and construction a new substation needed to serve customer growth in this and surrounding areas.

- The territorial boundary line will be modified to locate the area near Seven Springs in southern Pasco County within the service territory of Progress Energy. The area contains approximately 1754 customers currently served by WREC.
- The territorial boundary line will be modified to include the area known as East Gate Estates in southern Pasco County within the service territory of Progress Energy. The area contains approximately 78 customers currently served by WREC.
- The territorial boundary line will be modified to place the area known as Orangewood Mobile Home Park in southern Pasco County within the service territory of Progress Energy. The area contains approximately 257 customers currently served by WREC.
- Approximately 194 Extra-Territorial Customers under the current territorial agreements who are located within Progress Energy's service territory in Hernando and Pasco Counties and are currently served by WREC will be transferred to Progress Energy. All remaining Extra-Territorial Customers and the accounts of all former Extra-Territorial Customers that have experienced a change of use but are not yet served by the utility in whose service territory they are located will be addressed in the amended and consolidated territorial agreement such that service will be provided by the

utility in whose territory they are either currently located or will subsequently be located as the result of further boundary line modifications.

- The distribution facilities of each utility used exclusively for providing service to customers transferred pursuant to the settlement, including WREC's Pasco Well Field substation, will be transferred in conjunction with the customers.

4. Because of the settlement's broad scope, including the transfer of approximately 5,000 customers, it provides for implementation of the territorial boundary line modifications and related customer transfers in two phases. The first phase, consisting of the Majestic Oaks development in Hernando County and the Masaryktown, East Pasco Well Field, and East Gate Estates areas in Pasco County, is to be implemented in conjunction with the Commission's consideration of this Joint Petition for approval of the settlement. These areas are shown on the official General Highway County maps for Hernando and Pasco Counties contained in the attached Exhibit B.

The second phase includes the Trilby and Seven Springs areas, the two most populous areas covered by the settlement, the Orangewood Mobile Home Park in Pasco County, and the transfer of the Extra-Territorial Customers currently served by WREC in Hernando and Pasco Counties, which is to be implemented as a part of amendment and consolidation of the current agreements. As provided in the Settlement Agreement, the parties will submit the amended and consolidated territorial agreement and the second phase boundary line modifications and

customer transfers in a second joint petition which the parties have agreed to file for Commission approval by no later than June 30, 2005.

5. The parties expect that all first phase transfers of customers and related service facilities will be completed within six months of the Commission's order approving the transfers. The parties are agreeable to submitting periodic reports on the status of these customer and related facilities transfers if that is the Commission's desire, and will provide the Commission advance notification if extenuating circumstances require additional time to complete the transfers. The service addresses of the customers subject to transfer under the settlement's first phase are listed in the attached Exhibit C, which includes 799 customers to be transferred from WREC to Progress Energy and 359 customers to be transferred from Progress Energy to WREC (there are no customers residing in Majestic Oaks at this time).

6. Prior to the filing of this Joint Petition, all customers subject to transfer under the first phase implementation of the Settlement Agreement have been sent written notification of the settlement between WREC and Progress Energy, the transfer provisions described above, the necessity of Commission approval, and their opportunity to be heard in this regard. A sample copy of the letters providing such notification to the affected customers are contained in Exhibit D hereto. As of the time of filing, no responses to the notification letters have been received. A summary of the responses ultimately received, if any, will be provided by supplemental filing.

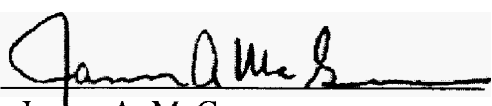

7. The parties represent that approval of the settlement, including the boundary line modifications and customer transfers provided for therein, will not cause a decrease in the reliability of electrical service to the existing or future customers of either utility. To the contrary, the parties believe that the settlement's boundary line modifications and customer transfers will enable the utilities to plan and operate their systems more efficiently, and will thereby serve to improve reliability, further the objective of eliminating uneconomic duplication of facilities, and promote the Commission's long-standing policy of encouraging territorial agreements between and among Florida's electric utilities.

WHEREFORE, WREC and Progress Energy respectfully request that the Commission grant this Joint Petition and approve the settlement contained in Exhibit A hereto and implementation of the settlement's first phase territorial boundary line modifications and transfers of customers and service facilities as described above

Respectfully submitted,

EXHIBIT A

**Settlement Resolving All Outstanding Issues
Between Progress Energy Florida and
Withlacoochee River Electric Cooperative
in Docket No. 040133-EU**

FPSC DOCKET No. 040133-EU

SETTLEMENT AGREEMENT

Withlacoochee River Electric Cooperative, Inc. ("WREC") and Progress Energy Florida, Inc. ("PEF") (also referred to individually as "Party" and collectively as "Parties") enter into this Settlement Agreement for the purpose of resolving all outstanding issues currently pending before the Florida Public Service Commission (the Commission) in Docket No. 031057-EI and, accordingly, hereby stipulate and agree as follows:

1. **Definitions.** As used in this Settlement Agreement, the definitions of following terms shall apply.
 - (a) The term "Existing Agreements" shall mean the four currently effective territorial agreements between the Parties that delineate their respective territorial areas in Citrus County and western Pasco County, which were approved by the Commission in Order No. 19610, issued July 5, 1988 in Docket No. 880234-EU; in eastern Pasco County, which was approved by the Commission in Order No. 20368, issued November 30, 1988 in Docket No. 881164-EU; and in Hernando County, which was approved by the Commission in Order No. 25309, issued November 7, 1991 in Docket No. 910940-EU.
 - (b) The term "Existing Territorial Boundary Line(s)" shall mean the territorial boundary line or lines established in each of the Existing Agreements.
 - (c) The term "Amended Agreement" shall mean the territorial agreement that results from the negotiations currently in process between the Parties to amend, consolidate and restate the Existing Agreements.

- (d) The term "Extra-Territorial Customers" shall mean those customers served by either Party on the effective date of the applicable Existing Agreement who are located within the service territory of the other Party established by such Existing Agreement.
- (e) The term "Effective Date" shall mean the date of a final order issued by the Commission approving this Settlement Agreement in its entirety and the implementation of Phase 1 as set forth herein.
2. The Existing Territorial Boundary Lines will be modified in a manner that places the following areas in the service territory of WREC: (a) the entire Majestic Oaks development located in Hernando County and depicted on the maps contained in the attached Exhibit A, including the portion thereof consisting of approximately 452 lots currently situated in PEF's service territory which is the subject of the pending docket; (b) the portion of the area known as Masaryktown located south of County Line Road in Pasco County, as depicted on the maps contained in the attached Exhibit A, which includes approximately 366 PEF customers; and (c) the area in and around Trilby in Pasco County, as depicted on the maps contained in the attached Exhibit A, which includes approximately 1,671 PEF customers.
3. The Existing Territorial Boundary Line will be modified in a manner that places the following areas in the service territory of PEF: (a) The area known as the "East Pasco Well Field" located in Pasco County, as depicted on the maps contained in the attached Exhibit A, which includes approximately 706 customers currently served by WREC from its Pasco Well Field substation; (b) the portion of the area near Seven Springs in Pasco County, as depicted on the maps contained in the

attached Exhibit A, which includes approximately 1,754 customers currently served by WREC; (c) the area known as East Gate Estates in Pasco County, as depicted on the maps contained in the attached Exhibit A, which includes approximately 78 customers currently served by WREC; and (d) the area known as Orangewood Mobile Home Park in Pasco County, as depicted on the maps contained in the attached Exhibit A, which includes approximately 257 customers currently served by WREC.

4. The approximately 194 Extra-Territorial Customers located within PEF's service territory in Hernando and Pasco Counties who are currently served by WREC under the Existing Agreements will also be transferred to PEF. All remaining Extra-Territorial Customers and the accounts of all former Extra-Territorial Customers that have experienced a change of use, and thus constitute New Customers under the terms of the Existing Agreements, but are not yet served by the utility in whose service territory they are located, will be addressed by the Amended Agreement which shall provide for the accounts of these current and former Extra-Territorial Customers as follows: (a) Such accounts will be served by the utility in whose service territory the accounts are currently located, which the Parties will implement in conjunction with, and subject to the same time limitations as the transfer of customers authorized by the Commission's final order approving the Amended Agreement, or (b) further modifications to the Existing Boundary Lines place such accounts in the service territory of the utility currently serving the accounts.

5. The modifications to the Existing Territorial Boundary Lines and the related customer transfers described in paragraphs 2 and 3 above, and the transfer of Extra-Territorial Customers described in paragraph 4 above, will be implemented in two phases.

(a) Phase 1 will be implemented in conjunction with the Parties' joint petition for approval of this Settlement Agreement and will include the following areas:

(1) The portion of the Majestic Oaks development currently located within PEF's service territory, as described in paragraph 2; (2) the portion of the Masaryktown area currently served by PEF, as described in paragraph 2; (3) the East Pasco Well Field area currently served by WREC, as described in paragraph 3; and (4) the East Gate Estates area currently served by WREC, as described in paragraph 3.

(b) Phase 2 will be included as a part of and implemented in conjunction with the Parties' joint petition for approval of the Amended Agreement, which the Parties will file not later than June 30, 2005, and will include the following areas: (1) The area in and around Trilby currently served by PEF, as described in paragraph 2; (2) the portion of the area near Seven Springs currently served by WREC, as described in paragraph 3; and (3) the area known as Orangewood Mobile Home Park currently served by WREC, as described in paragraph 3. Phase 2 will also include the transfer of the approximately 194 Extra-Territorial Customers currently served by WREC, as described in paragraph 4.

6. The number of customers identified for each of the areas described in paragraphs 2, 3 and 4, particularly those areas to be implemented in Phase 2, are based on estimates that may require adjustment as ongoing field inventories are completed. If the actual number of customers subject to transfer within these areas varies from the estimates such that either Party is adversely affected relative to the other Party, the Parties agree to identify other areas in which Boundary Line modifications would restore the customer balance reflected in these estimates and upon which the Parties' settlement was reached. Any such areas so identified will be included in the Amended Agreement.
7. The distribution facilities of each Party used exclusively for providing service to customers transferred to the other Party pursuant to this Settlement Agreement or the Amended Agreement shall be transferred in conjunction with the transfer of customers. Compensation for such distribution facilities shall be paid in accordance with the following provision:

The receiving Party shall compensate the transferring Party in an amount based upon the replacement cost (new), less depreciation calculated on a straight line basis over the life of the asset (facility) as determined from the transferring Party's books and records. The replacement cost shall be determined by applying a cost escalator such as the Handy Whitman Index or a common engineering cost estimation methodology to the original cost, as long as both parties apply the same escalation method.

The distribution facilities subject to this paragraph include, without limitation, WREC's Pasco Well Field substation identified in paragraph 3(a). Upon Commission

approval of this Settlement Agreement, WREC shall assign to PEF its ownership, leasehold, easement and other interests, if any, in the substation's distribution facilities, the substation property, and the roadway providing ingress and egress thereto, and shall provide to PEF such other documents or transfer instruments as may be reasonably necessary to establish PEF's interest in the substation. WREC shall be paid for the transfer of its interests in such substation property and roadway in an amount to be determined by mutual agreement, in addition to the compensation WREC shall receive for the substation's distribution facilities provided for in this paragraph.

8. In addition to the areas described in paragraphs 2 and 3, WREC and PEF recognize the existence of other areas covered by the Existing Agreements that may also warrant Territorial Boundary Line modifications due to various conditions which have arisen or changed since the Boundary Lines were initially established. These additional Boundary Line modifications will be included in the Amended Agreement as they are identified by the Parties.
9. This Settlement Agreement is expressly conditioned upon approval in its entirety by a final order of the Commission. In the event such approval is denied by the Commission, this Settlement Agreement shall be null and void, and of no further force or effect.
10. Except as amended, revised, or otherwise provided for by this Settlement Agreement, the terms and conditions of the Existing Agreements shall remain in full force and effect until such time as this Settlement Agreement and the Existing

Agreements are subsumed within, and amended, restated and consolidated by the Amended Agreement. Until such time, in the event of any conflict or inconsistency between this Settlement Agreement and any of the Existing Agreements, the terms and conditions of this Settlement Agreement shall prevail.

11. The Parties agree that this Settlement Agreement resolves all outstanding issues between the Parties currently pending before the Commission in Docket No. 040133-EU, and that upon approval of the Agreement as provided herein and the consent of the intervenor, Majestic Oaks Partners, LLC, the docket should be closed by the Commission.
12. This Settlement Agreement may be executed in counterpart originals, and a facsimile of an original signature will be deemed an original.

In Witness Whereof, the Parties evidence their acceptance and agreement with the provisions of this Settlement Agreement by the signatures of their duly authorized representatives.

Dated April 28, 2005.

Dear _____

To ensure that electric utilities in Florida, such as Progress Energy Florida (PEF), are able to provide reliable and economical electric service to their customers, utilities enter into agreements with one another establishing the geographical areas in which each utility is the exclusive provider of electric service. Utilities enter into these territorial agreements in an effort to avoid the unnecessary and uneconomic construction of duplicate electrical distribution lines and other facilities to serve their customers. Approval of the Florida Public Service Commission (FPSC) is required to ensure these objectives are met.

Over the past many years, we at PEF (formerly known as Florida Power) have had the pleasure of serving customers in your area because of a territorial agreement approved by the FPSC in 1988 between our company and our neighboring utility, Withlacoochee River Electric Cooperative, Inc. (WREC). Because of the 1988 agreement's expiration, we will soon enter into a new territorial agreement with WREC that will revise some of the service area boundaries between the utilities and enable each utility to serve its customers more reliably and economically. The new agreement must be approved by the FPSC before it can become effective and you will have the opportunity prior to that approval to provide your comments to the Commission. If you wish, we will provide the pertinent contact information for the FPSC when the territorial agreement has been filed and docketed.

If approved by the FPSC, the terms of the new territorial agreement call on Withlacoochee River Electric Cooperative, Inc. to provide electric service in your area. Your account would be transferred to WREC at some point in the upcoming months. While we regret losing the opportunity to serve you and your neighbors in the future, WREC is an excellent utility and I am confident you will find their service to be satisfactory.

You will not need to do anything to initiate this transfer since PEF and WREC will handle all of the arrangements on your behalf. If you have a deposit with Progress Energy, your deposit will be refunded directly to you. You should not experience any disruption of service as a result of this transfer and you will be notified in the unlikely event that a minimal interruption of service is required.

To provide you a rate comparison, in February, 2005 the residential rate of PEF for 1,000 Kilowatt-Hours (KWH) was \$92.07. For the same month, the residential rate of

WREC for 1,000 KWH was \$90.99. The rates of both utilities are subject to periodic change and may be raised or lowered in the future.

Please let us know if you have any questions or concerns about the proposed transfer of your service to Withlacoochee River Electric Cooperative, Inc., or if you would like information about contacting the FPSC. You can reach us by phone at 1-800-510-0140 or at the address shown above.

Sincerely,

Melissa Seixas

Dear «Name»

We are writing to inform you that Withlacoochee River Electric Cooperative, Inc., and Progress Energy Florida have recently agreed to revise some of the service area boundaries that were established several years ago. Geographical boundaries like these are common among most of Florida's electric utilities and are approved by the Public Service Commission to avoid unnecessary and uneconomic construction of duplicate electrical facilities. Safety concerns also arise when high voltage lines owned and maintained by different companies are in close proximity to one another.

This change will directly affect your account. Upon receiving the approval of the Florida Public Service Commission, work will begin to transfer your service to Progress Energy. It has been our pleasure to provide service to your area for many years and we will do everything we can to make this transition simple and worry free for you. We do not anticipate that this transfer will result in any major disruptions. You will have the opportunity to comment on this change directly to the PSC, and we will provide any pertinent contact information for you once the agreement has been filed and docketed in Tallahassee.

Any deposit that WREC is holding for this account will first be applied to any outstanding balance, and the remainder refunded to you. The same is true for the five dollar (\$5.00) membership fee except where there is another active WREC account. In that case, the membership fee will be transferred to an active account. Capital Credits associated with your membership will continue to be paid to you according to the standing bylaws of the Cooperative.

There is nothing that you will need to do to initiate this change. However, if you have questions or concerns, we have established a single contact for your convenience. You may call us at 727-868-9465 extension 6202 or contact us via e-mail at servicetransfer@wrec.net. You may also visit our web-site at wrec.net for more detailed information relating to the current territorial issues before the Commission.

Again, it has been our pleasure to have you as a member/owner of our Cooperative and we hope that we have provided a reliable and economic source of power.

Sincerely,

A handwritten signature in cursive script that reads "Billy E. Brown".
