& Administrative Services

RE: Docket No. 041269-TP

Dear Ms. Bayo':

At the issue identification for this docket held on April 29, 2005, Commission staff asked the parties to submit comments identifying which of the proposed issues (using the April 18 staff version of the issues) are legal in nature and which of the issues are factual and, therefore, would require testimony and an evidentiary hearing to resolve. In addition, the staff asked the parties to identify issues they believe to be "threshold issues" which should be resolved prior to establishing a procedure to resolve the remaining issues.

Sprint believes that the majority of the issues set forth on the issues list for this docket are legal issues, involving the appropriate interpretation of the governing federal rules and decisions, for which only briefing is necessary. Issues 11, 12, 17 and 28 as they relate to rates could require factual testimony to the extent the Commission intends to set actual rates rather than just resolve the issue as to whether TELRIC or some other pricing principle applies.

As far as threshold issues, Sprint believes that Issue 33 (How should the determinations made in this proceeding be incorporated into § 252 interconnection agreements?) is a threshold issue that should be resolve prior to addressing the remaining issues. Sprint strongly suggests that the parties should be given an opportunity to put forward their positions on this issue, such as through briefs and/or oral argument, before the Commission renders a decision on this threshold issue.
