**RE:** Docket No. 050375-TL - Recommendation to the Office of General Counsel - Petition for expedited review of growth code denials by Number Pooling Administrator for Jacksonville exchange (San Marco), by BellSouth Telecommunications, Inc.

On May 20, 2005, BellSouth submitted a code request application to the Number Pooling Administrator (NeuStar) for the Jacksonville exchange, San Marco (JCVLFLSMDS0) switch. Specifically, BellSouth requested three (3) 1,000 consecutive number blocks in the format (904) NXX-1XXX through (904) NXX-3XXX, to meet a customer's request. Also on May 20, 2005, NeuStar denied BellSouth's application because it did not meet the utilization criteria required for new number blocks, based on the FCC's month-to-exhaust (MTE) formula.

On May 20, 2005, BellSouth filed a petition requesting that the Commission overturn NeuStar's decision to deny numbering resources in the San Marco (JCVLFLSMDS0) switch. In accordance with Commission Order PSC-02-0352-PAA-TL (Docket No. 020087-TL), which approved an expedited process for NeuStar code denials, we have examined the BellSouth petition, along with the confidential supplemental information, and have determined the following:

- 1) The carrier has demonstrated that it has a customer in need of immediate numbering resources;
- 2) The carrier has shown that it will be unable to provide services to a potential customer because of the Pooling Administrator's denial of the numbering resources;
- 3) A potential customer cannot obtain service from the provider of his/her choice because the carrier does not have the numbers available.

Since the three criteria of Order PSC-02-0352-PAA-TL have been met, please prepare an administrative Proposed Agency Action (PAA) Order to be issued within seven business days of this memorandum (June 14, 2005), as outlined in the expedited code denial process orders.
