Comments

12. Have you experienced any significant barriers in entering Florida's local exchange markets? Please list and describe any major obstacles or barriers encountered that you believe may be impeding the growth of local competition in the state, along with any suggestions as to how to remove such obstacles.

TelCove's experience in entering the Florida local exchange market has been consistent with that of most other CLEC's. Interconnection negotiations with ILEC's have always been difficult, and the recent regulatory developments in Washington, D.C., have not improved the process. At this stage, TelCove most needs regulatory certainty so that it can tailor its business plans to the regulatory realities of the market. It is only with that regulatory certainty that TelCove can maximize its ability to provide viably competitive alternatives to the services offered by the ILEC's.

13. Please provide any additional general comments or information you believe will assist staff in evaluating and reporting on the development of local exchange competition in Florida.

TelCove has no additional comments or information to provide at this time.
