Re: Gistro Inc.

We are objecting to the authorization of Gistro Inc. by the State of Florida in Lee County to obtain rates and charges for the territory located in their notice of application. We do not believe this company is capable of managing the needs of this community, we presently are billed by Bonity Springs Utilities for the water and wastewater services. They are much better equipped and staffed to provide the needed services.

Yours truly,

Forest Mere Property Owners Association
