Subject: VERIZON REQUEST FOR WAIVER OF PREFIX DENIAL

Dear Ms. Bayo:

Verizon Florida Inc. (Verizon) is preparing to deliver services to customers in Florida using new packet switching equipment that will be activated in the first quarter 2006. This process is part of Verizon's transformation to an advanced broadband network. The new packet switch is not replacing an existing circuit switch so services supported by the existing circuit switched network will not be affected. Verizon requests a waiver to permit the assignment of the required Location Routing Number (LRN) in the 952 LATA.

On March 3, 2005, Verizon applied to the Pooling Administrator (PA) for new thousands-block of numbers for the purpose of obtaining a LRN. The application was denied on March 9, 2005 because Verizon's application did not satisfy the Months-to-Exhaust and Utilization criteria to be assigned a thousands-block from a new NXX code. Verizon requests that the Florida Public Service Commission use its delegated authority to waive the Months-to-Exhaust and Utilization requirements so that Verizon may be assigned the required NXX code to create the LRN in the LATA identified above. As part of its ongoing number conservation efforts, Verizon will return nine unused thousands-blocks in the NXX code to the appropriate rate center pool.

In support of this request, see the following attachments:

- Central Office Code (NXX) Assignment Request – Part 1
- Thousands-Block Application Form Part 1A
- CO Code Assignment Months to Exhaust Certification Worksheet – TN Level
- Code denial from the NeuStar Pooling Administration System via email

Please call Joan Gage on 813-483-2530 if you have any questions.

Sincerely,

David M. Christian
