Re: Request for State Waiver to Obtain Full Code

SBC Long Distance, LLC d/b/a SBC Long Distance, respectfully submits this request for approval of a State Waiver to obtain a full code from NeuStar, Inc., for the purpose of establishing an LRN for the new Hosted Internet Protocol Communication Services (HIPCS) Voice over Internet Protocol (VoIP) switch (TAMTFLTW1MD) serving customers out of the St. Petersburg rate center in Florida.

On August 10, 2005, SBC Long Distance submitted a Part 1A and a Months to Exhaust (MTE) and Utilization Certification Worksheet – TN Level in the Pooling Administration System (PAS); copies of the Part 1A and MTE worksheet have been attached to this request. One full code was requested for the St. Petersburg rate center. At the completion of the code request, PAS generated an error message indicating that the required utilization level was not met. SBC Long Distance currently has one block assigned out of the St. Petersburg Beach rate center; 727-623- 4, block has been established out of the SBCT switch TAMTFLTWDSO. The new code that SBCT is seeking would be served out of the TAMTFLTW1MN switch which will be used to provide HIPCS VoIP Service to customers served out of the St. Petersburg. Appropriately, the State Waiver Option was selected in PAS.

The code that is desired for assignment, 727-368-4, is available as of August 10, 2005 according to the NANPA Central Office Code Availability Report.
Please feel free to contact Mark Hepburn if you have any questions regarding this request.

Thank you for your consideration.

s/Mark E. Hepburn
Associate Director Regulatory
