Director:

I am writing you in objection to the MSM, LLC water certificate No. 611-W and waste certificate No. 527-S.

My husband and I are retired school teachers and we live in the Peace River Subdivision. We are in the proposed area for the services which MSM Utilities hopes to force us into accepting.. We moved to this area for the express reason to leave city life and services. Our house, well, and septic are only 6 years old and in excellent working condition. We do not want this service..

Most of the people who reside here are winter residents only. We are year-around residents and know that our neighbors have already been through a great deal of financial commitment to replace their homes destroyed by Hurricane Charley in August of 2004. In order to re-establish their property they had to repair their septic tanks and wells. Many people would find it a punitive financial burden after going through the aftermath of the hurricane to have to pay for the installation and use of the public utilities requested by MSM Utilities LLC.

We do not have a need for these services and strongly object to being used to enhance MSM Utilities LLC bank account. We feel they want to use the money that would be generated from us, to develop the land next to us which they recently purchased. At present there are no houses there, hence our money would be used to put in the necessary water and sewers so important to the future of this development.

We also strongly object to the timing of this request. Our people will not be returning until November or later. We hope they have been properly informed of this request and are allowed to express their concerns.
