RE: 367.045 Florida Statute of Application of MSM Utilities, LHC amend. Water Certificate No 611-W and Wastewater Certificate No. 27-S in Charlotte County

Dear Director, Division of Commission Clerk and Administrative Services, Florida Public Service Commission.

I am writing to you at the request of MSM Utilities, LHC. If I have an objection to the utilities entering my property to expand the water and sewage treatment.

Subject of any intrusion that will alter my land and its appearance.

The fact that the use of machinery, workers who would straggle to me. The noise that will transpire will be difficult for my health.

I moved out here to have peace, quiet and enjoy nature. There are heritage oak out here which brings me to thought they would be disturbed.

I am a 84 year old widow. Can't I have the privilege of living out here without having to contend with a profit business intruding on an ordinary citizen?

In addition any change made on the property will eventually raise my taxes which I couldn't afford.

Will you please at least consider my point of view in this situation?

Thank you for any consideration you make.

Sincerely,

Elizabeth Van Leerhoven
