COMMISSION  
CLERK

NOV - 1 PM 12: 12

RECEIVED HPSC

Gentlemen:

I object to my property at 29182 Jaymap Dr. being added to the application of MSM Utilities, LLC Water Certificate No. 611-W & Wastewater Certificate No. 527-S. Jaymap Dr. ends before it gets to the MSM Utilities, LLC property, contrary to the map.

Peace River Subdivision, where my home is located (above address) is developed as single family homes on lots large enough for septic systems & private water supply.

I have over \$4,000 in the two systems and they serve me adequately. This area is over 8 miles from Punta Gorda with cattle ranches, orange groves and single family homes on 1/2 a to 5-10 acres. I chose to buy in this area, not a congested, high density area & also where I can have control over my own water supply. If MSM Utilities, LLC wants to develop a high density project,

they should have bought where there were sewage & water facilities. I do not believe I should have to pay for systems I do not need and do not want, in order that MSM Utilities, LLC does not have to pay for what they need and MSM Utilities, LLC can make more profit.

Sincerely,

Jay L. Demitt
