COMMISSION  
CLERK

Director:

Please file this objection as necessary to comply with the appropriate rules.

I strongly object to the addition of territory to MSM utilities, LLC water certificate No. 611-W and wastewater certificate No. 527-S.

After the Hurricane designated as "Charley" on August 13, 2004 the State & Charlotte County Florida made me upgrade my septic system before I could obtain an occupancy permit for my new home located at 29142 Orangewood Street, Punta Gorda Fl. The water and sewage systems were permitted by the state and county and complied with all the standards set forth by these government agencies.  
BY THESE STANDARDS THESE SYSTEMS ARE COMPLETELY ADEQUATE.

By having our own well, it betters our chances of having a viable water source in the event of another hurricane or other natural disaster, rather than depend on a single privately owned source.

I also object to MSM Utilities, LLC. (A private development company) attempting to force me thru state intervention, to underwrite their cost of further developing the property, which at this time is under the jurisdiction of the two aforementioned water certificates.

The property owners in this area have suffered financially because of the hurricane last year. This annexation would add significant cost to these properties and more tax liability. Most of the property owners are retired or low income families who cannot afford a service that only benefits a private corporation.

Sincerely,

*Thomas Judge*
